Problems Of The Self Philosophical Papers 1956 1972:

Problems of the Self Bernard Arthur Owen Williams, 1979 *Problems of the Self* Bernard Williams, 1976-03-25 This is a volume of philosophical studies centred on problems of personal identity and extending to related topics in the philosophy of mind and moral philosophy **Problems of the Self** Bernard Arthur Owen Williams, 1985 Problems of the self : Philosophical papers 1956-1972 Bernard Arthur Owen Williams, 1975 The Moral Philosophy of Bernard Williams Chris Herrera, Alexandra Perry, 2014-08-11 Bernard Williams 1929 2003 is one of the most influential philosophers of the past 100 years with work ranging from meta ethics to philosophy of mind to reflections on pop culture Williams wrote with a deep sensitivity to the limitations in our knowledge and an optimistic outlook on the prospects that we have nonetheless for social and moral progress If Williams was right we still have much to learn from the Classical world and much of the responsibility that intellectuals have relates to the need to interpret and apply that knowledge But Williams was not stuck in the past and he did not advocate a rejection of science or modernity Instead Williams argued that there is often more knowledge around us than we realize and more opportunity than we realize for refinements in our basic ideas about persons ethics and politics This anthology showcases some of the best and most recent work from scholars working through some of the problems that Williams identified As Williams might have expected there is a great deal of disagreement on selected points and even on the particular approach used But in their commitment to a reflective and always somewhat skeptical outlook the authors here continue a tradition that Williams felt was vital Das eigene Leben verstehen Christian Budnik, 2013-09-03 Der Begriff der Identität von Personen spielt sowohl in unserem Alltag als auch in zahlreichen Kontexten der praktischen Philosophie eine zentrale Rolle Worin besteht personale Identität aber Im Rahmen der vorliegenden Arbeit wird dafür argumentiert dass reduktionistische Theorien keine befriedigende Antwort auf diese Frage geben können weil sie den Standpunkt der ersten Person nicht angemessen berücksichtigen Ausgehend von der Debatte um den Status des Wissens das wir von unseren eigenen mentalen Zuständen haben wird dafür argumentiert dass Personen die diesen Standpunkt einnehmen in einen aktiven Prozess der rationalen Ausbildung und Revision von mentalen Zuständen eintreten Im Hinblick auf das Verhältnis zu unserer eigenen diachronen Existenz bedeutet das Einnehmen dieses Standpunkts dass wir uns um eine verständliche Vorstellung unseres Lebens bemühen und auf diese Weise an unserer normativen Identität arbeiten Der Begriff der normativen Identität setzt aber eine nicht reduktionistische Antwort auf die metaphysische Frage nach personaler Identität voraus The Human A Priori A. W. Moore, 2023-07-09 The Human A Priori is a collection of essays by A W Moore one of them previously unpublished and the rest all revised These essays are all concerned more or less directly with something ineliminably anthropocentric in our systematic pursuit of a priori sense making Part I deals with the nature scope and limits of a priori sense making in general Parts II III and IV deal with what are often thought to be the three great exemplars of the systematic pursuit of such sense making philosophy in the case of Part II ethics in the case of Part III and mathematics in the case of

Part IV Much of the attention throughout is devoted to the work of other philosophers Kant and Wittgenstein feature prominently and five of the essays take the form of reviews or critical notices of recent work in philosophy But the interest in never purely exegetical One of the lessons that emerges from the essays either in opposition to the views of these other philosophers or by invocation of their views is that we humans achieve nothing of real significance in philosophy ethics or mathematics except from a human point of view and hence that all three of these pursuits can be said to betoken what may reasonably be called the human a priori

The Oxford Handbook of Philosophy of Cognitive Science Eric Margolis, Richard Samuels, Stephen P. Stich, 2012-01-10 The philosophy of cognitive science is concerned with fundamental philosophical and theoretical questions connected to the sciences of the mind How does the brain give rise to conscious experience Does speaking a language change how we think Is a genuinely intelligent computer possible What features of the mind are innate Advances in cognitive science have given philosophers important tools for addressing these sorts of questions and cognitive scientists have in turn found themselves drawing upon insights from philosophy insights that have often taken their research in novel directions The Oxford Handbook of Philosophy of Cognitive Science brings together twenty one newly commissioned chapters by leading researchers in this rich and fast growing area of philosophy It is an indispensable resource for anyone who seeks to understand the implications of cognitive science for philosophy and the role of philosophy within cognitive science

The Evolution of Modern Metaphysics A. W. Moore, 2011-12-12 This book is concerned with the history of metaphysics since Descartes Taking as its definition of metaphysics the most general attempt to make sense of things it charts the evolution of this enterprise through various competing conceptions of its possibility scope and limits The book is divided into three parts dealing respectively with the early modern period the late modern period in the analytic tradition and the late modern period in non analytic traditions In its unusually wide range A W Moore s study refutes the tired old cliché that there is some unbridgeable gulf between analytic philosophy and philosophy of other kinds It also advances its own distinctive and compelling conception of what metaphysics is and why it matters Moore explores how metaphysics can help us to cope with continually changing demands on our humanity by making sense of things in ways that are radically new

neuesten Stand gebracht **Politics and the General in Supreme Command** Richard Adams, 2024-11-25 This book argues for reform of the convention that when politicians decide on a course of action the general in supreme command obeys without question The entire spread out chain of command is unified in the general who offers the only connection between the military and politics Offering the sole connection between the military and politics only the general can turn political directions into military command and capacitate war Thus the general has unique opportunity to resist unconscionable direction to launch an unjust war or to conduct or expand war unjustly This book argues for reform so the general has the right in law to refuse direction which is lawful but awful The legal capacity to refuse would mean the general would be expected to act responsibly not merely as the unresisting pawn of politics Such reform creating legal opportunity for the supreme command to refuse lawful but unconscionable directives might avert unjust war This book will be of much interest to students of the ethics of war civil military relations and international relations *Hegels Dialektik der Negativität* Thomas Collmer, 2002 **Die Rationalität der Moral** Oliver Hallich, 2008 Sind moralische Normen und Werte begründbar und wenn ja wie Dies ist seit jeher eine zentrale Frage der philosophischen Ethik Dieses Buch erörtert diese Frage mit den Mitteln der sprachanalytischen Philosophie Im Eingangsteil wird das Verhältnis von Sprachanalyse und Ethik bestimmt und ein Überblick über die Entwicklung der modernen analytischen Ethik seit Anfang des 20. Jahrhunderts gegeben Der umfangreiche zweite Teil fragt nach der Begründbarkeit moralischer Normen Auf der Grundlage metaethischer Analysen die an den Präskriptivismus Richard Hares anknüpfen verteidigt der Autor ein faktenorientiertes Begründungsmodell das gleichzeitig Humes Gesetz also die Differenz zwischen deskriptiven und normativen Aussagen beachtet Im abschließenden dritten Teil wird in Bezug auf moralische Wertungen ein Emotivismus verteidigt und gezeigt dass dieser Raum für die rationale Begründung von Wertungen lässt Insgesamt ist das Buch ein Plädoyer für die Möglichkeit rationaler Moralbegründung und ein Versuch die verschiedenen Strömungen der modernen analytischen Ethik zu einer einheitlichen Grundagentheorie der Moral zusammenzuführen *Die Autonomie der Person* Peter Baumann, 2000 **Problems of the self** Bernard Arthur Owen Williams, 1991 *Philosophische Disziplinen* Annemarie Pieper, 1998 Die Objektivität der Moral Gerhard Ernst, 2008 Wer hat sich nicht schon gefragt was es mit unseren moralischen Überzeugungen auf sich hat Spiegeln diese die Wahrheit in Sachen Moral wieder Gibt es eine solche Wahrheit überhaupt Oder sind moralische Überzeugungen eher das Produkt unserer Interessen und Neigungen Ausdruck unserer Wünsche oder Mittel der Machtausübung das bloße Ergebnis unserer Erziehung unseres sozialen Umfelds oder gar eine List der Evolution Ist es eine Illusion wenn man glaubt echte moralische Erkenntnisse gewinnen zu können Kurzum Kann die Moral Objektivität beanspruchen Die vorliegende Arbeit versucht eine Antwort auf diese zentrale Frage der Metaethik zu geben Dazu wird zunächst gezeigt dass uns der Status der Moral ein Rätsel ist weil wir dazu neigen drei Thesen für wahr zu halten die nicht zugleich wahr sein können Die drei prinzipiell möglichen Strategien zur Auflösung dieses Trilemmas geraten jedoch in Schwierigkeiten weil es bisher nicht

gelingen ist ein passendes Vergleichsobjekt für die Moral zu finden In dieser Arbeit wird dafür argumentiert dass die Moral in genau der gleichen Weise wie die Wissenschaft Objektivität beanspruchen kann **Finite, Contingent, and Free** Joyce Kloc McClure, 2003 Finite Contingent and Free is a Roman Catholic perspective that views acceptance as the proper response to the conditions of human existence and the foundation for ethics **Annuaire de la Société suisse de philosophie** , 2007 American Book Publishing Record , 1977-03-31 Here's quick access to more than 490 000 titles published from 1970 to 1984 arranged in Dewey sequence with sections for Adult and Juvenile Fiction Author and Title indexes are included and a Subject Guide correlates primary subjects with Dewey and LC classification numbers These cumulative records are available in three separate sets
