## **Problems Of Work:**

Work the Problem Kathryn Stafford,2018-06-26 Cultivate the Mindset to Overcome Anything A software engineer sees her tech skills slipping even as she rises to manage her own team A marketing director is squeezed between a demanding artistic boss and her staff A tech savvy manager of operations wants to modernize his warehouse but is surprised when he is stymied Everyone has experienced a situation at work where challenges pile so high that the only solution seems to be to cut and run But what if we faced our problems head on instead of quitting Each fictionalized case study in Work the Problem is coupled with in depth analysis and commentary by two learning and development experts who offer fresh ways of looking at seemingly insurmountable difficulties The result is an engrossing collection of unique yet familiar stories that build on one another creating a conversation about universal workplace problems and how we can think about solving them for ourselves Work the Problem is about more than the specific demands of any one workplace it s about cultivating the mindset and skills to take on the inevitable challenges that will arise in any career Whether you re thinking of quitting your job you feel stalled out at your workplace or you re advising someone who has hit a wall Work the Problem is the book to reach for *The Problems of Work* L. and ethnographic methodology twenty five years ago the research agenda in social problems began to shift its focus giving rise to the Social Constructionism movement The present volume and the related shorter text Constructionist Controversies review the substantial contributions made by social constructionist theorists over that period as well as recent debates about the future of the perspective These contributions redefine the purpose and central questions of social problems theory and articulate a research program for analyzing social problems as social constructions A generation of theorists has been trained in the constructionist perspective and has extended it through numerous analyses of diverse aspects of contemporary social life The debates in this volume pose fundamental questions about the major assumptions of the perspective the ways in which it is practiced and the purposes of social problems theory Their point of departure is Ibarra and Kitsuse s essay cutting new theoretical ground in calling for investigating vernacular resources especially rhetorical forms in the social problems process Contributors are forceful proponents both within and outside of the social constructionist community who take a broad array of positions on the current state of social problems theory and on the rhetorical forms that need exploring They also lay down the general lines for diverse and often competing programs for the future development of the constructionist agenda

COVID-19 and Existential Positive Psychology (PP2.0): The New Science of Self-Transcendence Paul T. P.

Wong, Claude-Hélène Mayer, Gökmen Arslan, In the era of COVID 19 many people have suffered high levels of stress and mental health problems To cope with the widespread of suffering physical psychological social and economical the positive psychology of personal happiness is no longer the sole approach to examine personal wellbeing Other approaches such as Viktor Frankl s theory of self transcendence provide a promising framework for research and intervention on how to achieve resilience wellbeing and happiness through overcoming suffering and self transcendence The existential positive psychology of suffering complements the positive psychology of happiness which is championed by Martin Seligman as two equal halves of the circle of wellbeing and optimal mental health This Research Topic aims to examine the different approaches to Positive Psychology and their influence on individual wellbeing during the COVID 19 era One of the exciting development in the positive psychology of wellbeing is the mounting research on the adaptive benefits of negative emotions such as shame guilt and anger as well as the dialectical process of balancing negative and positive emotions As an example based on all the empirical research and Frankl s self transcendence model Wong has developed the existential positive psychology of suffering PP2 0 as the foundation for flourishing Here are a few main tenets of PP2 0 1 Life is suffering and a constant struggle throughout every stage of development 2 The search for self transcendence is a primary motive guided by the meaning mindset and mindful mindset 3 Wellbeing cannot be sustainable without overcoming and transforming suffering In this Research Topic we welcome diverse approaches discussing the following points The dialectic process of overcoming the challenges of every stage of development as necessary for personal growth and self transcendence The role of self transcendence in resilience virtue meaning and happiness The upside of negative emotions The new science of resilience
