Problems of Religious Pluralism John Harwood Hick, 1985-10-07 **Religious Diversity—What's the Problem?** Rita M. Gross, 2014-04-24 Once upon a time on grounds of both religion and common sense people assumed that the earth was flat and that the sun literally rose and set each day When newly developing knowledge made those beliefs untenable giving them up was difficult Today the belief that only one of the world's various religions is true for all people on earth is equivalent to the belief in a flat earth Both notions have become untenable given contemporary knowledge about religion Even though many people are still troubled by the existence of religious diversity today that diversity is a fact of life Religious diversity should be no more troubling to religious people than the fact that the earth is round and circles the sun This provocative book based on the author's longtime practice of Buddhism and comparative study of religion provides tools with which one can truly appreciate religious diversity as a gift and resource rather than as a deficiency or a problem to be overcome After we accept diversity as inevitable and become comfortable with it diversity always enriches life both nature and culture PROBLEMS OF RELIGIOUS PLURALISM. J. HICK, **Religious Disagreement and Pluralism** Matthew A. Benton, Jonathan L. Kvanvig, 2021 This volume presents renewed efforts at how best to think about truths concerning religion It explores many issues at the intersection of the epistemology of disagreement and religious epistemology engaging in careful reflection on religious diversity and disagreement and offering ways to balance epistemic humility with personal conviction **Kierkegaard and Issues in Contemporary Ethics** Mélissa Fox-Muraton, 2020-10-26 While Kierkegaard's philosophy focuses on concrete human existence his thought has rarely been challenged regarding concrete and contemporary moral issues This volume offers an overview of contemporary ethical issues from a Kierkegaardian perspective deliberately taking him out of the sphere of Theology and Christian Ethics and examining the ways in which his works can provide fruitful insight into questions which Kierkegaard certainly never himself envisaged such as accepting refugees into our communities understanding how we relate to social media issues of identity with regard to bioengineering or transgender identity or problems of interreligious dialogue The contributions in this volume by international scholars seek to address both the challenges and insights of Kierkegaard's existential ethics for our contemporary societies and its relation to topics of current interest in the field of moral philosophy The volume is organized into three major sections the first focusing on the relation between ethics and religion a topic of primary importance with regard to the development of religious foundationalism and the challenges of dealing with diverse belief systems within our communities the second on our understandings of ourselves and our relations to others with regard to issues of media and community and the third targeting more specifically questions of identity and the ways in which the developments of modern science impact identity construction This work offers new paths for critically engaging with the moral issues of our times from an existential perspective An Invitation to Analytic Christian Theology Thomas H. McCall, 2015-11-09 Analytic theology is a new and

stimulating movement that uses the tools and methods of philosophy to help us understand and articulate Christian doctrine Thomas McCall introduces us to analytic theology explaining its connections to Scripture Christian tradition and culture and calling the discipline to deeper engagement with the traditional resources of the theological task *Religious Pluralism and Civil Society* Wade Clark Roof, 2007-06-27 Organized into three major topics the articles in this volume delve into this urgent topic of our day and offer valuable insights in the following areas I Broad Perspectives Providing a solid foundation this opening section lays the groundwork for clarifying this complex issue II Region and Religion The papers in this section point to the importance of regional history and culture in shaping differing styles of pluralism within America III Minority Immigrant Experiences Focusing on contemporary immigrant and minority groups in the United States these articles reflect on the experiences of Muslims Orthodox Jews and Latino religions as well as the role of interfaith leaders in the 2005 2006 immigration reform debate IV Institutional Patterns Examining creative ways that pluralism is flourishing within the United States these articles provide a framework for future interfaith dialog Social scientists religious scholars policy makers and the informed public will find this volume of *The ANNALS* to be a valuable resource that distills this complex and sometimes cloudy issue of religious pluralism **Pluralism and Particularity in Religious Belief** Brad Stetson, 1994-09-30 Challenging commonly held assumptions in the field of religious studies the author argues that religious pluralism as a paradigm of religious belief is deeply flawed This work focuses particularly on the foundations of John Hick's influential articulation of religious pluralism and suggests its consonance with postmodernist criticism The critique of pluralism is followed by a defense of Christian exclusivism and its moral viability as a style of religious belief The comprehensive reference bibliography records the major works in the study of religious pluralism **Arguing about Religion** Kevin Timpe, 2009 *Arguing About Religion* is an ideal collection for students interested in contemporary philosophy of religion and related disciplines This volume brings together primary readings from over 40 of the world's leading philosophers of religion covering a broad range of issues Set alongside these works of academic philosophy are excerpts from controversial popular works by Daniel Dennett and Richard Dawkins in order to introduce the philosophical issues in a way that demonstrates their relevance to everyday life and sets them in the context of contemporary cultural discourse The volume is divided into 6 parts helping the student get to grips with classic and core arguments Topics covered include methodological issues in philosophy of religion God's nature and existence evil and divine hiddenness providence and interaction the afterlife religion and contemporary life Featuring lucid general and section introductions and a glossary by volume editor Kevin Timpe *Arguing About Religion* is an ideal starting point for students coming to philosophy of religion for the first time *Theology and the Religions* Viggo Mortensen, 2003 The academic study of religion is undergoing great changes in response to globalization Just as sociologists now find it necessary to think in terms of multiculturalism so religion scholars and theologians today must work in the context of multireligiosity Globalization is leading not only to multiethnic societies but also to plurality in

religions and worldviews Theology and the Religions A Dialogue offers the first sustained analysis of the trend toward multireligiosity and its implications for the study of religion Drawing on the resources of cultural analysis religious studies and theology an international slate of scholars explores the relation of multiculturalism and multireligiosity the need for interreligious dialogue and the possibilities for a theology of religions This groundbreaking work is supported by case studies of various religious traditions in diverse cultures from around the world Special attention is paid to Christian theological reflection however since as a global religion Christianity is particularly challenged by multireligiosity Offering an engaging wide angle view of religion worldwide Theology and the Religions makes a vital contribution to our understanding of the forces shaping the future of religious and social life Contributors Kajsa Ahlstrand Theodor Ahrens Jan Martin Berentsen Ulrich Dehn Helene Egnell Marianne C Qvortrup Fibiger Patrik Friedlund Virginia Garrard Burnett Geomon K George Elisabeth Gerle Friedrich Wilhelm Graf Hans Hauge Ulf Hedetoft S Mark Heim Chris Hower Klaus Hock Michael Ipgrave Andrew J Kirk Lene K hle Volker K ster Aasulv Lande Oddbjorn Leirvik Ole Skjerve k Madsen Hiromasa Mase Mogens S Mogensen Viggo Mortensen Johannes Nissen Klaus N rnberger Caleb Oladipo Tinu Ruparell Risto Saarinen Lamin Sanneh Olaf Schumann Notto R Thelle Joachim Track V tor Westhelle H S Wilson
