Proc Danish Inst Athens V 1:

Geometric Greece J.N. Coldstream, 2004-03 This detailed archaeological survey of the ninth and eighth century BC covers an astonishingly creative era in Greek history This second edition has been updated with a substantial chapter on the abundant discoveries and developments made since the book's first publication *Ships of the Ancient Mediterranean* David Blackman, Boris Rankov, Kalliopi Baika, Henrik Gerding, Jari Pakkanen, 2013 This is the first detailed and comprehensive study of the ships which were a defining symbol of naval power in the ancient Mediterranean *Ancient Fishing and Fish Processing in the Black Sea Region* Tonnes Bekker-Nielsen, 2005-02-01 This volume challenges the orthodox view that fishing and fish played only a marginal role in the economy of the ancient world In fact there is archaeological evidence for ancient fish processing on a commercial scale not only in the Mediterranean itself but also on the Atlantic coast and in the Black Sea region especially the Crimea Our literary sources testify to the widespread culinary and medicinal use of salted fish and fermented fish sauces in antiquity and especially in the first centuries AD In this book the authors assess the present state of research on ancient fishing and discuss its implications for the history of the Black Sea region especially the period of Greek colonization along its shores While grain has traditionally been viewed as the main export commodity of the Pontic colonies the existence of salting vats on the coast of the Crimea indicate production of salt fish or fish sauce on a large scale presumably for export However many questions remain unanswered for instance concerning ownership and organization of the processing facilities or how the finished product was transported to distant markets Tonnes Bekker Nielsen teaches ancient history at the University of Southern Denmark Esbjerg *Kürschners deutscher Gelehrten-Kalender*, 2009 Each volume includes Wissenschaftliche Zeitschriften **Mochlos IVA** Jeffrey S. Soles, 2022-12-31 This excavation of a Late Bronze Age town on the island of Mochlos in northeastern Crete includes the House of the Metal Merchant with two large bronze hoards and 13 other structures Each building is described with its stratigraphy architecture small finds ecofactual materials function and room use This is a two volume set Volume 1 contains the text and Volume 2 contains the Concordance Tables Figures and Plates **Archaeometric and Archaeological Approaches to Ceramics** S. Y. Waksman, 2007 Papers presented at EMAC 05 8th European Meeting on Ancient Ceramics Lyon 2005 This volume presents a selection of papers delivered at the 8th European Meeting on Ancient Ceramics EMAC which took place in Lyon France in 2005 The EMAC series of conferences initiated in Rome in 1991 meets every two years in a European city and brings together specialists carrying out research on ancient ceramics using archaeological sciences EMAC provides the opportunity to present and debate recent advances in this field of research from methodological aspects to archaeological studies with fully integrated laboratory approaches **Theaterbauten als Teil monumentaler Heiligtümer in den nordwestlichen Provinzen des Imperium Romanum** Thomas Hufschmid, 2016 Schweiz Frankreich Italien Grossbritannien Luxemburg *Journal of the National Cancer Institute*, 2014 *Encyclopedia of Meat Sciences* Carrick Devine, M.
