

Latin American Studies

We strongly encourage Latin American Studies majors to study abroad, and Cornell offers many off-campus courses that immerse students in the cultures of Mexico, Argentina, Chile, Uruguay, the Bahamas, and soon, Cuba.

Pursuing Latin American studies at Cornell College is a unique experience. Because of the small class sizes, which are capped at 25 students, students have in-depth discussions and personalized instruction.

The Latin American studies program offers invaluable skills in communicating, writing clearly, and in critical thinking—skills that are especially useful in the era of globalization. Latin American studies prepares students for many different kinds of graduate school or career experiences and can be especially useful in such careers as government service (both foreign and domestic), the ministry and other forms of church service, journalism, teaching, international business and trade, social work, and international service organizations in the United States and abroad.

BENEFITS OF ONE COURSE AT A TIME

The One Course At A Time curriculum offers the freedom of long class periods and allows our students to be immersed in one class full-time for three and a half weeks.

One Course At A Time also makes it possible for students to travel to countries such as Guatemala for immersive language instruction. Cornell's associations with the Associated Colleges of the Midwest and School for International Training also provide access to semester-long programs in Costa Rica, Bolivia, Chile, Ecuador, Mexico, Nicaragua, and Venezuela. In addition, Cornell faculty lead various block-long courses to Latin America and students in areas as diverse as economics and business, education, and biology have all traveled to Latin America recently. Many of these programs are outlined in greater detail on the Spanish department website at cornellcollege.edu/spanish.

CURRICULUM HIGHLIGHTS

Latin American studies is a flexible, interdisciplinary program designed to provide students with a broad knowledge of Latin American culture and history. Our majors select courses from a range of disciplines including anthropology, art, economics and business, history, Latin American literature and culture, politics, religion, and Spanish. In addition to our standard course list, students also enjoy a variety of topics courses and independent study opportunities to explore subjects of particular interest.

One recent student took advantage of the One Course calendar to travel to Costa Rica, Argentina, and Uruguay and wrote a capstone thesis about the history of, and prospects for, integration between Central American countries. Another student traveled to the Bahamas and wrote her thesis about a Latino painter from her hometown of Denver.

Porous Borders Julian Lim, 2017-10-10 With the railroad's arrival in the late nineteenth century immigrants of all colors rushed to the U S Mexico borderlands transforming the region into a booming international hub of economic and human activity Following the stream of Mexican Chinese and African American migration Julian Lim presents a fresh study of the multiracial intersections of the borderlands where diverse peoples crossed multiple boundaries in search of new economic opportunities and social relations However as these migrants came together in ways that blurred and confounded elite expectations of racial order both the United States and Mexico resorted to increasingly exclusionary immigration policies in order to make the multiracial populations of the borderlands less visible within the body politic and to remove them from the boundaries of national identity altogether Using a variety of English and Spanish language primary sources from both sides of the border Lim reveals how a borderlands region that has traditionally been defined by Mexican Anglo relations was in fact shaped by a diverse population that came together dynamically through work and play in the streets and in homes through war and marriage and in the very act of crossing the border
