Proceedings Of The 15th Meeting Of The French Colonial Historical Society Martinique And Guadeloupe:

Haitian Revolutionary Studies David Patrick Geggus, 2002-08-12 The Haitian Revolution of 1789-1803 transformed the Caribbean's wealthiest colony into the first independent state in Latin America encompassed the largest slave uprising in the Americas and inflicted a humiliating defeat on three colonial powers. In *Haitian Revolutionary Studies* David Patrick Geggus sheds new light on this tremendous upheaval by marshaling an unprecedented range of evidence drawn from archival research in six countries. Geggus's fine-grained essays explore central issues and little-studied aspects of the conflict including new historiography and sources the origins of the black rebellion and relations between slaves and free people of color. The contributions of vodou and marronage to the slave uprising Toussaint Louverture and the abolition question the policies of the major powers toward the revolution and its interaction with the early French Revolution are also addressed. Questions about ethnicity identity and historical knowledge inform this essential study of a complex revolution.

Proceedings of the ... Meeting of the French Colonial Historical Society French Colonial Historical Society. Meeting, 1996 *A Turbulent Time* David Barry Gaspar, David Patrick Geggus, 1997-03-22 Stimulating incisive insightful sometimes revisionist this volume is required reading for historians of comparative colonialism in an age of revolution. Choice An eminently original and intellectually exciting book. *William and Mary Quarterly* This volume examines several slave societies in the Greater Caribbean to illustrate the pervasive and multi-layered impact of the revolutionary age on the region. Built precariously on the exploitation of slave labor organized according to the doctrine of racial discrimination the plantation colonies were particularly vulnerable to the message of the French Revolution which proved all the more potent because it coincided with the emergence of the antislavery movement in the Atlantic world and interacted with local traditions of resistance among the region's slaves free coloreds and white colonists. **Index of Conference Proceedings**, 1993

General History of the Caribbean UNESCO Volume 6 NA NA, 2019-06-12 Volume 6 looks at the ways historians have written the history of the region depending upon their methods of interpretation and differing styles of communicating their findings. The authors examine how the linguistic diversity of the region has affected the historian's ability to coalesce an historical account. The second half of the volume describes the writing of history in the individual territories taking into account changes in society economy and political structure. This volume concludes with a detailed bibliography that is comprehensive of the entire series.

Slavery and Slaving in World History: A Bibliography, 1900-91: v. 1 David Y. Miller, 2019-07-23 This bibliography of 20th century literature focuses on slavery and slave trading from ancient times through the 19th century. It contains over 10,000 entries with the principal sections organizing works by the political geographical frameworks of the enslavers. *Spaniards, Planters, and Slaves* Gilbert C. Din, 1999 *Spaniards Planters and Slaves* is a provocative look at the institution of slavery and how it functioned as a part of Louisiana's culture during the years of Spanish rule. Gilbert C. Din challenges the idea that conditions under the Spaniards differed little from the years of

French rule and examines how local culture merged with colonial government and residual laws to create a slave system unlike any other in the Deep South. Din presents many aspects of the slavery issue including a look at the French system, conflicts between planters who favored the established system and governors who promoted the less stringent Spanish laws, and the political favoritism that sought to benefit the wealthy New Orleans district. Din also discusses the role of the Catholic Church and debates the commonly held idea that the church's influence made Spanish slavery less brutal, asserting instead that its role in most areas was insignificant and largely observational. Using government documents from archives in Spain and Louisiana, Din paints a historically accurate portrait of a time when the blended culture of the eighteenth century colony resulted in conflict and turmoil. Most important are the *Papeles Procedentes de la Isla de Cuba*, a collection of colonial documents that illustrate not only the actions but also the personalities of the governors and how they implemented changes and handled problems within the slave system. *Spaniards, Planters, and Slaves* is the first in its field to capture the years of Spanish rule as a specific and unique point in Louisiana's history of slavery. Din's research uncovers both the complexities of the slavery issue and the Spanish heritage that ultimately helped to shape the slave system of the future state. It is an ideal study for anyone interested in the history of both colonial Louisiana and slavery itself.

General History of the Caribbean Higman, B.W., UNESCO, 1995-06-21 This volume looks at the ways historians have written the history of the region depending upon their methods of interpretation and differing styles of communicating their findings. The chapters discussing methodology are followed by studies of particular themes of historiography. The second half of the volume describes the writing of history in the individual territories taking into account changes in society, economy, and political structure. The final section is a full and detailed bibliography serving not only as a guide to the volume but also as an invaluable reference for the General History of the Caribbean as a whole.

Historic Cities of the Americas [2 volumes] David F. Marley, 2005-09-12 With

rare maps prints and photographs this unique volume explores the dramatic history of the Americas through the birth and development of the hemisphere's great cities. Written by award-winning author David F. Marley, *Historic Cities of the Americas* covers the hard-to-find information of these cities' earliest years, including the unique aspects of each region's economy and demography, such as the growth of local mining, trade, or industry. The chronological layout, aided by the numerous maps and photographs, reveals the exceptional changes, relocations, destruction, and transformations these cities endured to become the metropolises they are today. *Historic Cities of the Americas* provides over 70 extensively detailed entries covering the foundation and evolution of the most significant urban areas in the western hemisphere. Critically researched, this work offers a rare look into the times prior to Christopher Columbus' arrival in 1492 and explores the common difficulties overcome by these European-conquered or founded cities as they flourished into some of the most influential locations in the world. Over 70 richly detailed entries on the most colorful, important cities of the New World, from Quebec City, Boston, and San Francisco in the Northern Hemisphere to Buenos Aires, Cuzco, and Bahia in the Southern Hemisphere, are organized into four geographical sections: the Caribbean, Mexico, Central America, North America, and South America, enabling the reader to easily locate information. Hundreds of rare, historically significant antique maps, prints, and photographs enhance both the value and appearance of the book. A very extensive bibliography provides users with easy access to many hard-to-find materials.

Essays in French Colonial History. French Colonial Historical Society. Meeting, Andrew John Bayly Johnston, 1997. On 31 May–3 June 1995, more than 200 participants gathered in Sydney and at Fortress Louisbourg, Nova Scotia, for the 21st annual conference of the French Colonial Historical Society. *Essays in French Colonial History* contains seventeen of the best articles presented at this meeting. It is a wide-ranging collection that explores many new and innovative facets of the French experience *outré-mer*. The contributors, a mix of established experts and younger scholars, examine French activity in North America, the West Indies, Africa, and South America and focus on issues: military, social, cultural, native, and political history. Among the subject areas explored are the 16th-century French colonies in Brazil and Florida; Victor Hugues and the Reign of Terror on Guadeloupe; commerce and the distinctiveness of Louisbourg; the importance of letter writing and *compagnonnage*; unresolved territory of the Creek Nation; case studies in the area of transition; patrimonial French colonial interests and policies in Atlantic Canada; Africa and South America; attitudes among African Americans in post-French St. Louis; and a research report on the Historical Atlas of Quebec.

French Americans--Native Americans in Eighteenth-century French Colonial Louisiana. Joseph Zitomersky, 1994.

Beyond Fragmentation. Juanita De Barros, Audra Diptee, David Vincent Trotman, 2006. In this book, leading scholars pull together some of the most recent research on the key themes of Caribbean history: slavery, the transition to freedom, colonialism, and decolonization. Although all parts of the Caribbean experienced these phases, the manner in which they did so differed significantly, in part because of their distinct imperial histories. Contemporary fragmentation and insularity have led to significant variations in the region's historiography.

The contributors examine the divergent historiographical and methodological developments in the British French Spanish and Dutch Caribbean By addressing these four linguistic areas of the Caribbean they aim to overcome the traditional differences imposed by language and in the process to explore hotly debated subjects and new directions in Caribbean scholarship
