Proceedings Of The Berkeley Linguistics Societybls4 004:

Proceedings of the Annual Meeting of the Berkeley Linguistics Society Berkeley Linguistics Society,1987 **The Syntax of Dutch** Jan-Wouter Zwart,2011-09-15 Dutch is a West Germanic language closely related to English and German but its special properties have long aroused interest and debate among students of syntax This is an informative guide to the syntax of Dutch offering an extensive survey of both the phenomena of Dutch syntax and their theoretical analyses over the years In particular the book discusses those aspects of Dutch syntax that have played an important role in the development of syntactic theory in recent decades Presupposing only a basic knowledge of syntax and complete with an extensive bibliography this survey will be an important tool for students and linguists of all theoretical persuasions and for anyone working in Germanic linguistics linguistic typology and linguistic theory **Inner Aspect** Lisa deMena Travis,2010-09-02 Finishing this book was one of the most difficult things I have ever done It took far too long from original idea to page proofs and suffered from being relegated to small corners of my life It was very rarely on the front burner Since I started working on this topic in 1991 there has been a lot of interesting work done on the areas of the articulation of VP phrase structure mirroring event structure the use of functional categories to represent Aktionsart and many other areas that the research presented here touches on The hardest thing about doing a project of this size is to accept that not everyone's ideas can be addressed and not all new research can be incorporated The only way that I have found it possible to let this book go to press is to reread the Preface to Events in the Semantics of English by Terence Parsons where he writes The goal of this book is neither completeness nor complete accuracy it is to get some interesting proposals into the public arena for others to criticize develop and build on My aim in this book is to make connections between various accounts of various constructions in various languages at the risk of treating each of these too lightly I am grateful to too many people to thank them individually *Egyptian-Coptic Linguistics in Typological Perspective* Eitan Grossman,Martin Haspelmath,Tonio Sebastian Richter,2014-12-17 This volume presents the Egyptian Coptic language in cross linguistic typological perspective It is aimed at linguists of all stripes especially typologists historical linguists and specialists in Egyptian Coptic Afroasiatic languages or African languages Uniquely the contributions are written by both typologists and experts of Egyptian Coptic and typologists The former provide case studies dealing with particular aspects of the various phases of the Egyptian Coptic language e g COLLIER on conditional constructions while the latter situate Egyptian Coptic data in cross linguistic perspective e g those by GUELDEMANN and GENSLER The volume also includes an introductory section that includes an overview of the Egyptian Coptic language HASPELMATH a sketch of its sociohistorical setting GROSSMAN RICHTER its relationship with language typology RICHTER and the way in which Egyptian Coptic data should be presented to nonspecialists focusing on transliteration and glossing GROSSMAN HASPELMATH This is the first book to bring together language typology and the Egyptian Coptic language in an explicit fashion Competition in Word-Formation Alexandra Bagasheva,Akiko

Nagano, Vincent Renner, 2024-05-15 This volume focuses on a number of interrelated issues in the theorizing and interpretation of morphological rivalry including the differences between a semasiological and an onomasiological approach to competition phenomena in word formation the scope of such phenomena micro level rivalry between individual affixes as well as macro level competition between different processes the different sources of competition and the possible resolutions of competitive situations An overview of existing research in the field is provided as well as new cutting edge findings and proposals for analytical innovation Linguistic data are drawn from European and Asian languages and morphologists semanticists and anyone interested in the dynamics of language will be stimulated by the analytical models and explanations offered in the 11 chapters

Aspects of Split Ergativity Jessica Coon, 2013-08-07 Aspects of Split Ergativity argues that aspect based split ergativity does not mark a split in how Case is assigned but rather a split in sentence structure The contexts in which we find the appearance of a nonergative pattern in an otherwise ergative language namely the nonperfective aspects involve an intransitive aspectual matrix verb and a subordinated lexical verb

Nominalisierte Infinitive im Spanischen Barbara Schirakowski, 2021-05-10 Spanische nominalisierte Infinitive können eher nominal strukturiert sein oder überwiegend verbale Wortartenmerkmale zeigen Welchen Vorkommens und Bildungsbedingungen unterliegen aber syntaktisch unterschiedliche Formen Diese Frage wurde bisher eher fragmentarisch behandelt Basierend auf einer Klassifikation von Subtypen untersucht diese Studie nominalisierte Infinitive im Hinblick auf ihre Kompatibilität mit Verben unterschiedlicher Verbklassen Argumentrealisierung und semantische Interpretationsmöglichkeiten Die empirische Basis bilden kontrolliert erhobene Akzeptabilitätsurteile zu einem nominaleren Formtyp *el cantar de los pajaros* das Singen der Vögel und einem verbaleren Formtyp *el cantar coplas* das Liedersingen Es wird aufgezeigt dass beide Formen als Ereignisnominalisierungen auftreten können ansonsten aber unterschiedlichen syntaktisch semantischen Beschränkungen unterworfen sind Während der nominalere Typ intransitive Basisverben präferiert und nur eingeschränkt Argumente der Basis realisieren kann ist der verbalere Typ auf generische Ereignisreferenz spezialisiert Die Ergebnisse dieser Studie leisten einen Beitrag vom Verständnis der Vielfalt deverbalen Nominalisierungen im Spanischen
