Perspectives On Financial Control Essays In Memory Of Kenneth Hilton:

Perspectives on Financial Control Mahmoud Ezzamel, David Heathfield, 2013-12-14 The purpose of this book is to offer a small token in memory of Ken Hilton who died prematurely at the age of 52 in February 1990 The book contains contributions from a number of leading academics some were close colleagues of Ken's at the University of Southampton some have been at other universities but knew Ken fairly well and still some who never met Ken but who knew of him through his work The unifying motivation for all of them however was their immense sense of loss of an extremely proactive and excellent academic Having led the research group on the Southampton Econometric Model project for three years Ken was appointed to the Chair of Financial Control at the University of Southampton in 1970 at that time this was one of only a handful of similar Chairs in the UK Most of Ken's subsequent academic career was devoted to contributing to the study of financial control initially in the private sector and subsequently in the public sector The breadth of his interests was demonstrated by his enviable ability to contribute to the areas of industrial economics accounting and management science We hope therefore that this volume which embraces contributions from leading academics in each of these three fields is a fitting tribute to Ken's work

Enlightened Planning Christopher Chapman, 2019-06-26 Strategy risk management and project management are often considered separately by those applying their principles but at their most effective all are dependent upon each other for success Enlightened Planning teaches this holistic perspective and demonstrates how a synthesis of these approaches yields far greater opportunities A strategic calculated risk for example can be less inherently risky than chronic risk aversion over time Here a respected specialist and teacher demonstrates how to become an enlightened planner one that is aware of project strategy and risk concerns and their potential interplay Following the core principle of Keep It Simple Systematically he shows how organised systematic thought processes can

demystify the complexities of decision making when considering a huge variety of concerns at once Supported throughout with real life cases from the author s considerable experiences with commercial organisations it is also supported by a website containing even more cases learning and teaching materials This book is essential reading for any practitioner specialising in risk management project management or strategy as well as those teachers or participants in executive programmes

Transparency Christopher Hood, David Heald, 2006-09-07 This is a critical look at the now pervasive idea of achieving better governance through greater openness to outside scrutiny It shows that transparency can conflict with other good governance values and that measures to promote it often lead to a tighter control of information
