Perspectives On Technology And Culture

Michael B. Schiffer

Perspectives On Technology And Culture:

Perspectives on Technology and Culture Egbert Schuarman,Egbert Schuurman,1995 **Anthropological Perspectives on Technology** Michael B. Schiffer,2001 These fourteen original essays accept a dual premise technology pervades and is embedded in all human activities By taking that approach studies of technology address two questions central in anthropological and archaeological research today accounting for variability and change These diverse yet interrelated chapters show that to understand human lives researchers must deal with the material world that all peoples create and inhabit Therefore an anthropology of technology is not a separate discrete inquiry instead it is a way to connect how people make and use things to any activity studied ranging from religion to enculturation to communication to art Each contributor discusses theories and methods and also offers a substantial case study These detailed inquiries span human societies from the Paleolithic to the computer age By moving beyond the usual approach of examining ancient technologies particularly chipped stone and low fired ceramics this volume probes for the construction of meaning in the material world across millennia The authors of these essays find technology to be an inclusive and flexible topic that merges with studies of everything else in human activity A provocative and powerful discussion of the role of technology in human cultures At a time when archaeology has become less focused on theory and archaeology and social anthropology seem to fracture farther and farther apart the book is a breath of fresh air Professor John Douglas University of Montana   21st Century Perspectives on Music, Technology, and Culture Richard Purcell,Randall Richard,2016 This collection examines the multiple ways people listen to consume and produce music and sound in an increasingly digital world Technologies such as social networks recommendation algorithms virtual cloud storage and portable listening devices increasingly mediate both personal and communal experiences with music While such technologies may be convenient their unexamined use raises ethical socio political and philosophical questions This volume brings together multiple contributions which engage with these questions and others posed by emergent musical and social technologies Drawing upon a range of different areas of inquiry it provides a varied critical approach to the question of how people interact with music in the modern era and debates the universal themes of modern music consumption   *The Bloomsbury Handbook of Technology Education* David Gill,Dawne Irving-Bell,Matt McLain,David Wooff,2023-04-20 The Bloomsbury Handbook of Technology Education draws together international perspectives on contemporary praxis in technology education from philosophy to empirical research Through carefully commissioned chapters leading authors explore the fundamentals of technology education curriculum and pedagogy Chapters discuss technology education as it can be experienced by children and young people inside and outside of the classroom across the world as well as the importance of technology and the history and philosophical origins of technology education Carefully curated this is an innovative and exciting volume for students teachers teacher educators researchers lecturers and professors in technology education   **Historical Perspectives on Technology, Society and Culture** ,2000

Risk and Technological Culture Joost Van Loon,2013-01-11 The question as to whether we are now entering a risk society has become a key debate in contemporary social theory Risk and Technological Culture presents a critical discussion of the main theories of risk from Ulrich Becks foundational work to that of his contemporaries such as Anthony Giddens and Scott Lash and assesses the extent to which risk has impacted on modern societies In this discussion van Loon demonstrates how new technologies are transforming the character of risk and examines the relationship between technological culture and society through substantive chapters on topics such as waste emerging viruses communication technologies and urban disorders In so doing this innovative new book extends the debate to encompass theorists such as Bruno Latour Donna Haraway Gilles Deleuze Felix Guattari and Jean Fran ois Lyotard *Education in a Digital World* Neil Selwyn,2012-08-21 Drawing on a wealth of theoretical and empirical work Education in a Digital World tackles a number of pressing questions such as how are global trends in educational technology refracted through national policies and processes How exactly are educational technologies linked to issues of global economics and the fortunes of national and international economies To what extent are digital technologies implicated in the commercialisation marketization and commodification of education These questions and others are addressed throughout eight wide ranging chapters which consider topics such as the national policy strategies of countries across North and South America Europe and East Asia the educational technology portfolios of international organizations such as the United Nations and Microsoft as well as the role of education and technology in international development and the on going efforts to provide one laptop per child across low income regions and countries Through these examples Selwyn develops a detailed analysis of education technology and globalisation drawing together arguments and debates from various academic perspectives Written in a detailed but accessible manner this is an essential book for anyone wishing to gain a better understanding of the role of education and technology in contemporary globalised society *Human Perspectives in the Internet Society* Konrad Morgan,2004 An exploration of the effects of new technology on culture and psychology this title demonstrates how society has been both enriched and challenged by these changes It should be of interest to those who need to be aware of the psychological impact of new technology and responsive to issues of international communication and cooperation **Technology and Culture** ,1993 **Chinese Philosophy of Technology** Qian Wang,2020-02-20 This book gathers essays that introduce the ideological advances in the philosophy of engineering and technology in contemporary China It particularly focuses on China s distinctive concepts and methods revealing different views and academic debates to offer readers a comprehensive overview of this important field The contributors present unique perspectives based on practical problems and traditional philosophy examining such issues and concepts as axiology and theories of process the difference between engineering activities and technology activities and the core of the relationship between Dao and Technique Other essays cover the ethics of technology practical wisdom phronesis and practical reasoning as well as creative concepts and methods concerning the philosophical problems in high technology

architectural technology and technological innovation The authors also consider more general issues in the field This book compiles the relevant research achievements of Chinese scholars in various time periods Some authors have revised and translated into English papers published in Chinese while others present their research in English specifically for this study An annotated bibliography of the major publications in the field completes this collection **Perspectives on Technology and Culture** Egbert Schuurman,1995 *Trains, Literature, and Culture* Steven D. Spalding,Benjamin Fraser,2011-12-29 Trains Literature and Culture Reading and Writing the Rails delves into the rich connections between rail travel and the creation of cultural products from short stories to novels from photographs to travel guides and from artistic manifestos of the avant garde to Freud s psychology Each of the contributions engages in critical readings of textual or visual representations of trains across a wide spectrum of time periods and traditions from English and American to Mexican West African and European literary cultures By turns trope metaphor and emblem of technological progress these textual and visual representations of the train serve at times to index racial and gender inequalities to herald the arrival of a nation s independence and at still others to evince the trauma of industrialization In each instance the figure of the train emerges as a complex narrative form engaged by artists who were Reading Writing the Rails as a way of assessing the competing discursive investments of cultural modernity Modernization and the Crisis of Development in Africa Jeremiah I. Dibua,2017-11-28 In this book Jeremiah I Dibua challenges prevailing notions of Africa s development crisis by drawing attention to the role of modernization as a way of understanding the nature and dynamics of the crisis and how to overcome the problem of underdevelopment He specifically focuses on Nigeria and its development trajectory since it exemplifies the crisis of underdevelopment in the continent He explores various theoretical and empirical issues involved in understanding the crisis including state class gender and culture often neglected in analysis from an interdisciplinary radical political economy perspective This is the first book to adopt such an approach and to develop a new framework for analyzing Nigeria s and Africa s development crisis It will influence the debate on the development dilemma of African and Third World societies and will be of interest to scholars and students of race and ethnicity modern African history class analysis gender studies and development studies **Perspectives on Culture, Technology and Communication** Casey Man Kong Lum,2006 This book is an introduction to media ecology as a theory group that encompasses a coherent body of canonical literature and perspectives on understanding culture technology and communication It examines the various facets of media ecology s development since the turn of the 20th century as an intellectual tradition and how it has evolved into being through an interlocking network of researchers from multidisciplinary backgrounds such as behavioral sciences classics cultural and structural anthropology information and systems theory history of technology media and culture and so on Specifically the volume clearly explains some of media ecology s defining ideas theories or themes about the interrelationship among culture technology and communication the thinkers behind these ideas the social political and intellectual contexts in which these

ideas came into being as well as how the reader may use these ideas in our times **1999 International Symposium on Technology and Society** IEEE Society on Social Implications of Technology,1999 The theme of the symposium is Women and Technology Historical Societal and Professional Perspectives The roles of women in technology are more diverse controversial and important today than ever before Since the 1950s women have tried to technologically empower themselves particularly by entering the engineering profession They have done so in great numbers although today it is glaringly obvious that women are still underrepresented in engineering Women in the field still face gender based obstacles expectations and biases despite decades of efforts to eradicate these problems These issues are addressed *e-Religion* Anastasia Karaflogka,2014-12-18 Religion has flourished in cyberspace bringing individuals together helping to consolidate fringe religions promoting activism and evangelism and providing sites for the promotion and examination of specific issues E Religion is one of the first systematic scholarly studies of religion on the Web Providing a clear outline of Web epistemology and theory the book outlines the key methodologies for the study of e religions The book will be invaluable to students of religion sociology and technology **Smart Multimedia** Troy McDaniel,Stefano Berretti,Igor D. D. Curcio,Anup Basu,2020-07-31 This book constitutes the proceedings of the Second International Conference on Smart Multimedia ICSM 2019 which was held in San Diego CA USA in December 2019 The 45 papers presented were selected from about 100 submissions and are grouped in sections on 3D mesh and depth image processing image understanding miscellaneous smart multimedia for citizen centered smart living 3D perception and applications video applications multimedia in medicine haptics and applications smart multimedia beyond the visible spectrum machine learning for multimedia image segmentation and processing biometrics 3D and image processing and smart social and connected household products **Starting the Dialogue** Marie Hoepfl,Brian Raichle,2009 Handbook of Research on Technoself: Identity in a Technological Society Luppicini, Rocci,2012-10-31 This book provides insights to better enhance the understanding of technology s widespread intertwinement with human identity within an advancing technological society Provided by publisher Repertorio mundial de proyectors de investigación, estudios y cursos relativ a las políticas científicas y tecnológicas Unesco,1981 UNESCO pub Directory of research projects training courses in technology

Embracing the Song of Appearance: An Mental Symphony within **Perspectives On Technology And Culture**

In a global used by monitors and the ceaseless chatter of quick conversation, the melodic beauty and emotional symphony produced by the written word frequently disappear in to the background, eclipsed by the persistent noise and disruptions that permeate our lives. However, nestled within the pages of **Perspectives On Technology And Culture** a marvelous literary treasure brimming with raw emotions, lies an immersive symphony waiting to be embraced. Constructed by an elegant musician of language, this interesting masterpiece conducts viewers on an emotional trip, skillfully unraveling the hidden tunes and profound impact resonating within each carefully crafted phrase. Within the depths with this touching assessment, we shall explore the book is central harmonies, analyze their enthralling publishing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
