Perspectives On Urban Infrastructure:

Perspectives on Urban Infrastructure Royce Hanson, 1984-01-01 *Perspectives on Urban Infrastructure* National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on National Urban Policy, 1984-02-01 In this provocative volume distinguished authorities on urban policy expose the myths surrounding today's infrastructure crisis in urban public works Five in depth papers examine the evolution of the public works system the limitations of urban needs studies the financing of public works projects the impact of politics and how technology is affecting the types of infrastructures needed for tomorrow's cities *Critical Perspectives on Suburban Infrastructures* Pierre Filion, Nina M. Pulver, 2019-04-30 Most new urban growth takes place in the suburbs consequently infrastructures are in a constant state of playing catch up creating repeated infrastructure crises in these peripheries However the push to address the tensions stemming from this rapid growth also allow the suburbs to be a major source of urban innovation Taking a critical social science perspective to identify political economic social and environmental issues related to suburban infrastructures this book highlights the similarities and differences between suburban infrastructure conditions encountered in the Global North and Global South Adopting an international approach grounded in case studies from three continents this book discusses infrastructure issues within different suburban and societal contexts low density infrastructure rich Global North suburban areas rapidly developing Chinese suburbs and the deeply socially stratified suburbs of poor Global South countries Despite stark differences between types of suburbs there are features common to all suburban areas irrespective of their location and similarities in the infrastructure issues confronting these different categories of suburbs **Perspectives in Urban Development** Ramanath Jha, Jyoti Chandiramani, 2012

Governing Cities on the Move Walter Schenkel, 2018-04-27 This title was first published in 2002 The success of any investment strategy in urban infrastructures is dependent on how people as members of households companies or institutions will use these infrastructures in their daily lives and how actors take decisions on their investment strategies Insights into these behaviours can help public and private actors to cope with diversity complexity and uncertainty in a dynamic urban environment This book elaborates both theoretically and empirically the functional and governance management perspective of urban infrastructures It comprises theoretical contributions related to accessibility land use modelling and urban governance while case studies from Antwerp Geneva Milan Oslo Turin and Zurich effectively analyze the problems associated with mobility infrastructure finance planning transformation and governance It will be of considerable value to anyone with an interest in urban performance **Redeploying Urban Infrastructure** Jonathan Rutherford, 2019-07-31 This book explores urban futures in the making as seen through the lens of urban infrastructure The book describes how socio technical arrangements of energy and water provision are being recast in continuing efforts towards realising sustainable transformation of cities It critically investigates how infrastructure comes to matter by

analyzing the shifting capacities and entanglements of diverse actors with these systems the various means they use to envision enact and contest changes and the wide ranging social and political implications of emerging infrastructure transitions Drawing on original research into urban infrastructure debates and projects in Stockholm and Paris the author develops a novel conceptual framework for studying and acknowledging the active vital role of infrastructure in constituting a material politics of urban transformation Straddling the latest theoretical insights and empirical investigation of urban planning practice and socio technical engineering of systems and flows Redeploying Urban Infrastructure forges new timely reflections and perspectives which will be of interest to the growing multidisciplinary community of scholars investigating infrastructure and to academics and practitioners with a concern for understanding the wider politics of urban futures

Perspectives in Urban Geography Chiranjit Singh Yadav,1987 International Perspectives in Urban Studies ,1995

Urban Infrastructure Remo Dalla Longa,2023-03-01 The book deals with the concept of urban infrastructure and the strong evolution of globalization in particular the driving force taken by global cities Urban infrastructure is a constituent part of the global cities both have a synergistic evolution The main reference is to western global cities in the intertwining of financialization settling and brownfield which is a little different from the urbanization of other global cities of other non developed countries or emerging countries There is therefore a significant link between globalization and urban infrastructure The occurrence of slowbalization can have consequences on urban areas infrastructures and more generally on the different dichotomy between global city and nation With the pandemic infectious and the post COVID there is already a different configuration between the global city and the rest of the national territory A driving element of the urban infrastructure and the global city has been the financialization and identification of assets within global cities Urban infrastructure as an asset has grown considerably in the last two decades in the wake of what has already been highlighted previously for real estate There are contiguous issues that affect the concept of urban infrastructures and they are the enormous growth of finance and the landings of this in the great cities of the world with investments that first involved Real Estate and then urban infrastructures There has also been a technological revolution that has merged the ubiquitous technological infrastructure with other more traditional components of the infrastructure even apparently recent themes such as smart cities come from this evolutionary trend and merge with urban infrastructures The theme of smart cities if properly interpreted gives strength to the concept of urban infrastructure **Post-Socialist Urban Infrastructures**

(OPEN ACCESS) Tauri Tuvikene,Wladimir Sgibnev,Carola S. Neugebauer,2019-05-15 Post Socialist Urban Infrastructures critically elaborates on often forgotten but some of the most essential aspects of contemporary urban life namely infrastructures and links them to a discussion of post socialist transformation As the skeletons of cities infrastructures capture the ways in which urban environments are assembled and urban lives unfold Focusing on post socialist cities marked by neoliberalisation polarisation and hybridity this book offers new and enriching perspectives on urban infrastructures by

centering on the often marginalised aspects of urban research transport green spaces and water and heating provision Featuring cases from West and East alike the book covers examples from Azerbaijan Bulgaria Serbia Croatia Germany Russia Georgia Lithuania Poland the Czech Republic Tajikistan and India It provides original insights into the infrastructural back end of post socialist cities for scholars planners and activists interested in urban geography cultural and social anthropology and urban studies *Perspective on Urban Land and Urban Management Policies in Sub-Saharan Africa* Akin L.

Mabogunje,1992 This paper addresses the problems of governance in municipalities in Africa The concern has been to adapt traditional systems of governance to the needs of modern urban management This paper investigates the need for a new analysis of the twin problems of urban land and urban management in sub Saharan Africa This need is based on the apparent paradox between the dynamic city creating activities of civil societies in all of these countries and the weak capabilities of states to guide and direct these activities This paper focuses on governance at the community level where empowerment and accountability begin It argues that a prerequisite for dealing with these problems is an institutional environment with which the target populace is familiar and to which it is likely to relate in participating in managing the city The importance of the particularly dynamic systems of traditional governance at the lowest level in managing urban growth is only recently being recognized **The Routledge Handbook of Architecture, Urban Space and Politics, Volume II** Nikolina

Bobic,Farzaneh Haghighi,2024-11-22 Architecture and the urban are connected to challenges around violence security race and ideology spectacle and data The first volume of this handbook extensively explored these oppressive roles This second volume illustrates that escaping the corporatized and bureaucratized orders of power techno managerial and consumer oriented capitalist economic models is more urgent and necessary than ever before Herein lies the political role of architecture and urban space including the ways through which they can be transformed and alternative political realities constituted The volume explores the methods and spatial practices required to activate the political dimension and the possibility for alternative practices to operate in the existing oppressive systems while not being swallowed by these structures Fostering new political consciousness is explored in terms of the following themes Events and Dissidence Biopolitics Ethics and Desire Climate and Ecology Urban Commons and Social Participation Marginalities and Postcolonialism Volume II embraces engagement across disciplines and offers a wide range of projects and critical analyses across the so called Global North and South This multidisciplinary collection of 36 chapters provides the reader with an extensive resource of case studies and ways of thinking for architecture and urban space to become more emancipatory Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license *Digital Twins for Smart Metabolic Circular Cities* Simon Elias Bibri,Tan Yigitcanlar,Jeffrey Huang,2025-05-29 Digital Twins for Smart Metabolic Circular Cities Innovations in Planning and Climate Resilience explores the advanced convergence of smart city technologies digital twin applications smart urban metabolism
