quality children's books NKA **A Celebration of Literature and Response** Marjorie R. Hancock, 2004 Reinforced by teachers' experiences in actual classrooms this book provides a wealth of ideas for projects, readings and response-based activities that will engage all learners in the joy of reading and responding to literature. It blends an appreciation of children's books across all genres with an emphasis on meaningful instructional strategies for literacy programs. Coverage of multicultural international literature helps illustrate the universality of themes in children's literature, providing a basis for establishing a library of literature that expresses the totality of children's experiences and speaks to children from all cultures and backgrounds. Coverage is based on Louise Rosenblatt's transactional theory of reader response and organized around five main celebrations that the author uses as a framework for uniting the findings of reader response theory with quality children's literature and exemplary reflective literature-based practice. Includes expanded coverage on multicultural international literature including numerous examples of children's literature written and published in other countries. Includes extensive coverage of reader responses to literature: oral and written responses as well as those made through the visual arts. For teachers of Children's Literature. Introduces future teachers to the full range of children's responses to literature; encourages the use of a variety of strategies to elicit authentic, heartfelt, meaningful responses from pupils. An appendix on children's literature awards. Highlights exemplary children's literature across all genres; focuses students' attention on established standards and offers guidance for choosing literature that meets such standards.
