Peter Lombard Gmt Great Medieval Thinkers:

The Story of a Great Medieval Book Philipp W. Rosemann, 2019-02-06 Peter Lombard a twelfth century theologian authored one of the first Western textbooks of theology the Book of Sentences Here Lombard logically arranged all of the major topics of the Christian faith His Book of Sentences received the largest number of commentaries among all works of Christian literature except for Scripture itself Now notable Lombard scholar Philipp W Rosemann examines this text as a guiding thread to studying Christian thought throughout the later Middle Ages and into early modern times This is the second title in a series called Rethinking the Middle Ages which is committed to re examining the Middle Ages its themes institutions people and events with short studies that will provoke discussion among students and medievalists and invite them to think about the middle ages in new and unusual ways The series editor Paul Edward Dutton invites suggestions and submissions

Peter Lombard. 1 Marcia L. Colish, 1994 The first general study of Peter Lombard c 1100 1160 in a century this book places Peter's thought in the context of the intellectual debates of his time in the effort to understand the substance of Lombardian theology and the reasons why his principal work the Sentences immediately became a classic of early scholastic theology with a durable influence doing more to shape the education of university theologians and philosophers than any other work of systematic theology for the next four centuries Attention is paid to the sentence collection as a genre of theological literature the problem of theological language with which Peter and his contemporaries wrestled and his contribution to early scholastic biblical exegesis as well as to the development of his systematic theology in the Sentences

Christian society marked by uniform rituals of birth and death and worship That uniformity which came under increasing strain as national European characteristics became more pronounced achieved perhaps its most perfect intellectual expression in the thought of the western Christian thinkers who are sometimes called scholastic theologians These philosophers produced during roughly the period 1050 1350 CE a cohesive body of work from their practice of theology as an academic discipline in the university faculties of their day Richard Cross elegant and stylish textbook designed specifically for modern day undergraduate use on medieval theology and philosophy courses offers the first focused introduction to these thinkers based on the individuals themselves and their central preoccupations The book discusses influential figures like Abelard Peter Lombard and Hugh of St Victor the use made by Aquinas of Aristotle the mystical theology of Bonaventure Robert Grosseteste s and Roger Bacon s interest in optics the complex metaphysics of Duns Scotus and the political thought of Marsilius of Padua and William of Ockham Key themes of medieval theology including famous axioms like Ockham s Razor are here made fully intelligible and transparent **The Social & Political Ideas of Great Medieval Thinkers** ,1928
