Predator Turned Prey:

Predator Turned Prey Ravyn Crescent, 2005-04-27 The Comet Despair changed everything even creating a race of animal people Anasiens The humans and Anasiens formed a tentative alliance but one tragic day a war known as the human revolt forced the two species apart Once again slavery and trafficking is legal and rampant once again there is devastation in the land and once again society is ruled by chains Years later a child is born of both sides Thirteen year old Hunter was trapped caged isolated alone enslaved and forced to hold the knowledge that it didn't have to be this way Sometimes you don't need a comet to change the world forever

Escaping From Predators William E. Cooper, Jr, Daniel T. Blumstein, 2015-05-28

When a predator attacks prey are faced with a series of if when and how escape decisions these critical questions are the foci of this book Cooper and Blumstein bring together a balance of theory and empirical research to summarise over fifty years of scattered research and benchmark current thinking in the rapidly expanding literature on the behavioural ecology of escaping The book consolidates current and new behaviour models with taxonomically divided empirical chapters that demonstrate the application of escape theory to different groups The chapters integrate behaviour with physiology genetics and evolution to lead the reader through the complex decisions faced by prey during a predator attack examining how these decisions interact with life history and individual variation The chapter on best practice field methodology and the ideas for future research presented throughout ensure this volume is practical as well as informative
