Flying South

Wild cranes fly south each fall. But cranes raised by people do not have parents to teach them how to do this. So scientists trained some cranes they had raised to follow a small plane. The pilot played a tape of adult cranes calling one another. Then the plane took off. The tame cranes followed it. The plane flew for two hours each day. So did the birds.

1. Which sentence tells what most likely happens next?

- ☒ A. The cranes will learn to fly south by themselves.
- ☐ B. The cranes will get into the plane with the pilot.
- ☐ C. Wild cranes will start to follow the plane, too.

A Family Picnic

The Alanos went on a family picnic. They chose a pretty place to sit. It had a nice view of a pond. No one saw the anthill. Mr. Alano spread a blanket. Mrs. Alano took all the food from the basket. The family began to eat.

2. Which sentence tells what will most likely happen next?

- ☐ A. Mr. Alano will fall in the pond.
- ☐ B. Mrs. Alano will take a nap.
- ☒ C. The ants will share the picnic.

Predicting Reading Passages That Build Comprehension:

Predicting Linda Beech, 2005 Grades 2-3 *Effective Peer Learning* Keith Topping, Céline Buchs, David Duran, Hilde van Keer, 2017-03-31 Peer learning allows a positive use of differences between pupils turning them into learning opportunities. Yet education professionals often remain unfamiliar with the principles necessary to guarantee its effectiveness. The aim of this book is to help practitioners establish well structured and effective peer learning projects using a variety of methods. It introduces and defines cooperative learning, mutual peer interaction and peer tutoring, directional peer interaction, outlining general organisational principles that will help practitioners implement peer learning in either of these forms. The authors consider how to prepare and train learners to undertake their roles effectively and how to organise and monitor the process of interaction as it is happening. They then look at how these systems actually operate in the classroom, exploring how the organisational principles work in practice and giving many practical examples. Subsequently three successive chapters consider how to structure peer interactions in cooperative learning, same age peer tutoring and cross age peer tutoring. Finally the advantages and problems and the potential and challenges of peer learning are examined. The book should be read in stages with each part being able to be read on its own thus providing time for reflection. Within each part readers can choose to focus on cooperative learning or peer tutoring. The successive focuses on definitions, general principles of implementation and practical issues of implementation should help practitioners build their skills and confidence. Many choices between methods are described and when teachers are confident in one method they may then consider trying a new method. It is the authors' hope that the book will become a model for peer learning by sharing with readers the skills of other practitioners and thereby helping all children to develop to their full potential.

Using RTI to Teach Literacy to Diverse Learners, K-8 Sheila Alber-Morgan, 2010-04-05 Practical intervention strategies for diverse learners who struggle with literacy. Covering reading and writing, this book shows K-8 teachers how to build the literacy skills of diverse learners in inclusive classrooms. The author discusses instruction and assessment within a Response to Intervention (RTI) framework and how to provide targeted support to students who may require special attention. The book offers specific literacy intervention strategies for each tier in a 3 tier RTI framework. Examples of assessments and graphic organizers, brief case studies illustrating how the strategies can be used with students. A discussion on using thematic units to integrate reading and writing.

Creating Reading Instruction for All Children Thomas G. Gunning, 1996 This book will not tell you how to teach reading. Teaching reading is in large measure a matter of making choices. Should you use basal readers or children's books or both? Should you teach children to read whole words or to sound out words letter by letter or both? Should you have three reading groups or four or no groups? There are no right answers to these questions. The answers depend on your personal philosophy, your interpretation of the research, the level at which you are teaching, the kinds of students you are teaching, community preferences and the nature of your school or school district's reading program.
