## **Personal Prayers For Women Brief Prayers Particular For Women To Help In:**

**Personal Prayers for Women** Grace Simpson, 1995      *Prayers of Jewish Women* Markus H. McDowell, 2006 Markus McDowell examines how the literature of the Second Temple period portrays women at prayer through an examination of the literary context and character of those prayers The goal of this work is a greater understanding of how women were portrayed in literary sources and an offering of some fresh insights for the study of women's religious and social roles in the ancient world The texts are analyzed and categorized within five areas social location content form occasion and gender perspective The prayers are also compared and contrasted with men's prayers in the same sources The analysis includes locating as much as possible the historical literary and cultic context of each document in which these prayers appear By examining all prayers in these texts uttered by women not just prayers of named or prominent women and then comparing them with all the prayers of men in those same texts certain patterns appear This study adds to our knowledge of women and religion in Second Temple Judaism by primarily exploring patterns that appear among the prayers in the literature of the Second Temple period While there are fewer prayers by women than men in this literature the prayers of women are not portrayed as significantly different from those of men in terms of social location content form or occasion At the same time the prayers of women exhibit other patterns of language and in a minor way form and occasion that differ from the prayers of men      *Women and Missions* Lucia P. Towne, 1934      Jewish Liturgy as a Spiritual System Arnold Rosenberg, 2000-06-30 Readers of this book will emerge with a new awareness of what we as Jews are doing when we pray why we are doing it how we are supposed to be affected by prayer how the prayers came to be as they are today and how they differ among the major movements of American Judaism The traditional Jewish liturgy if properly understood is a deep and powerful technique for spiritual transformation However spiritual depth of prayer has been progressively reduced over the past 2000 years as the underlying currents of the Siddur the Jewish prayerbook have been lost to the majority of worshippers This book explains the Jewish liturgy prayer by prayer according to what in the context of ancient and medieval Judaism was its raison d'être a structure for transforming one's mind and way of life The author writes The crisis Judaism now faces while genuine is due not to a lack of depth in the traditional Jewish prayer service but to a profound and almost universal lack of understanding of that prayer service that pervades all segments of the Jewish community Jewish prayer services in many contemporary synagogues lack spiritual fervor because the linkage between word and ritual on the one hand and mental transformation on the other that would generate such fervor is not generally known to Jewish adults and is not taught to Jewish children Unfortunately the prayer service regularly degenerates into a race through words and gestures divorced from the sequence of mental states and visualizations through which these words and gestures were intended to lead us This book was written to reunite the activity and language of prayer with its original transformative goal by educating worshippers about what is at the heart of the siddur Several chapters provide an overview of the Jewish prayer service and its spiritual flow These

chapters explain the visualizations allusions and meditative techniques that form the heart of the service and the altered states of consciousness through which the service can move the worshipper as well as a synopsis of the history of Jewish liturgy and its study In addition each major prayer is analyzed in its order of appearance according to how it fits into the structure and flow of the liturgy as a vehicle for transforming the mind The book may be used as a companion to the Siddur because the prayer sequence is matched to the corresponding page numbers in all of the most widely used Siddurim in the United States Also included is a chart of the morning service for weekdays and Shabbat that graphically illustrates not only the structure and history of the prayers but also the sequence of mind states to which they correspond

Mind the Backlash: Gender Discrimination and Sexism in Contemporary Societies Hilde Coffe, Susan Banducci, Marta Fraile, Jessica Fortin-Rittberger, Amy Alexander, 2023-09-26 Decades of campaigns and policy efforts have brought significant progress in women s economic and political status and pushed gender equality up the global policy agenda The goal of gender equality however still remains largely out of reach as illustrated by the recent wave of women s protests against sexual harassment assault and gender violence e g MeToo movement Some European countries e g Poland Hungary and Lithuania have even seen their performance on gender equality backslide in recent years and in parallel to calls for increased equality a wave of mobilisation against gender equality has appeared in the public discourse Conservative authoritarian and populist voices in many democracies are now contesting the equal participation of men and women in society under the auspices of a war on gender ideology This backlash against women s empowerment carries considerable implications for anti discrimination laws policies protecting women against domestic violence reproductive health and the establishment of gender quotas Given the backlash against gender observed in various countries around the globe we argue that now is a critical time to revisit and broaden our knowledge about gender discrimination gender equality and sexism Our proposed Research Topic will provide a gender perspective to illustrate and understand the recent illiberal turn in politics in a variety of contexts Taking a comparative approach we aim at improving our understanding of how sexism discrimination and gender equality operate at the societal level and how they shape broader social and political views At the individual level we will study the current seemingly opposing forces for and against gender equality by analysing the antecedents predispositions experiences and motivations explaining and underpinning these attitudes towards different ways of gender equality sexism and discrimination
