Focus On: 100 Most Popular English Songwriters Wikipedia contributors, The Politics of Punk David A. Ensminger, 2016-08-11 Punk rock has long been equated with the ever shifting concepts of dissent disruption and counter cultural activities As a result since its 1970s and 1980s incarnations when bands in Britain from The Clash and Sex Pistols to Angelic Upstarts U K Subs and Crass offered alternative political convictions and subversive lifestyle choices the media has often deemed punk a threat Bands like Circle Jerks Dead Kennedys Bad Religion and Millions of Dead Cops followed suit in America pushing similar boundaries as the music mutated into a harsher hardcore style that branched deep into suburban enclaves Those antagonisms and ideals were in turn translated by another wave of bands from Fugazi to Anti Flag whose commitment to community building was as pronounced as their taut explosive tunes In *The Politics of Punk* David

Ensminger probes the conscience of punk by going beyond the lyrics and slogans of the pithy culture war. He paints a broad nuanced and well documented picture of the ongoing activism and outreach inherent in punk. Creating a people's history of punk's social cultural aesthetic and political features, the book features original interviews with members of Dead Kennedys, Dead Boys, MDC, Channel 3, Snap, Her, Screams, Minutemen, TSOL, the Avengers, Blowdryers and many more. Ensminger highlights punk money's influence on philanthropy and community involvement and paints a contextualized picture of how punk critiqued dominant culture by channeling support and media coverage for a wide array of humanitarian programs for gays and lesbians, the homeless, the disabled, environmental and health research and other causes.

Coughing and Clapping: Investigating Audience Experience Karen Burland, Stephanie Pitts, 2016-05-13. *Coughing and Clapping: Investigating Audience Experience* explores the processes and experiences of attending live music events from the initial decision to attend through to audience responses and memories of a performance after it has happened. The book brings together international researchers who consider the experience of being an audience member from a range of theoretical and empirical perspectives. Whether enjoying a drink at a jazz gig, tweeting at a pop concert or suppressing a cough at a classical recital, audience experience is affected by motivation, performance quality, social atmosphere and group and personal identity. Drawing on the implications of these experiences and attitudes, the authors consider the question of what makes an audience and argue convincingly for the practical and academic value of that question.
