Manion, Bernard J. Muir, 2019-07-08 Originally published in 1991 Medieval Texts and Images is a collection of essays which critically examines medieval manuscripts The book contains a wide range of contributions the first examines the relationship of the L gende Dor e and its relationship to the aristocratic patrons who commissioned these manuscripts the second scrutinises the tradition of French illumination as it was developed in Paris in the so called Bedford Master s workshop in the 1420s The text examines liturgical texts of the medieval period and written and liturgical contributions to Renaissance art Other contributions include an investigation into the written scroll within the painted composition comparing various compositional and thematic functions in the depiction of a Crucifixion and a study of Christian vernacular poetry This collection provides a comprehensive overview of the use of text and image in medieval literature *Exemplum* Robert Walter Hans Peter Scheller, 1995 During the Middle Ages artistic ideas were transmitted from one region to another and passed on from one generation to the next in the form of drawings This kind of handmade reproduction exemplum in Latin was used to record the form and content of works of art Some of those drawings have survived in model books The author presents a fascinating account of many and various aspects of these drawings with special emphasis on how they contribute to our understanding of the genesis of medieval works of art Exemplum will be a standard work of reference for many years to come **The Green Middle Ages** Claudine Chavannes-Mazel, Linda Ijpelaar, 2025-10-01 How green were people in late antiquity and the Middle Ages Unlike today the nature around them was approached with faith trust and care The population size was many times smaller than today and human impact on nature not as extreme as it is now People did not have to worry about issues like deforestation and sustainability This book is about the knowledge of plants and where that knowledge came from How did people use earth and plants in ancient times and what did they know about their nutritional or medicinal properties From which plants one could make dyes such as indigo woad and dyer s madder Is it possible to determine that through technical research today Which plants could be found in a ninth century monastery garden and what is the symbolic significance of plants in secular and religious literature The Green Middle Ages addresses these and other issues including the earliest herbarium collections with a leading role for the palaeography and beautiful illuminations from numerous medieval manuscripts kept in Dutch and other Western libraries and museums **Studies in Manuscript Illumination, 1200-1400** Lucy Freeman Sandler, 2007-12-31 The author is Helen Gould Sheppard Professor of Art History at New York University Institute of Fine Arts and a leading authority on English medieval manuscript illumination This volume bring together twenty six of Professor Sandler s studies focusing on illustrated
