Beihefte zum Jahrbuch für Amerikastudien, 1958 **Archiv des Völkerrechts**, 1949 Die Reaktion des amerikanischen Verfassungsdenkens auf die Beseitigung der rechtsstaatlichen Demokratie im nationalsozialistischen Deutschland und ihr Niederschlag in der Rechtsprechung des Supreme Court Ernst-Rudolf Wolf, 1970 A New Deal for the World Elizabeth Borgwardt, 2007-09-30 In a work of sweeping scope and luminous detail Elizabeth Borgwardt describes how a cadre of World War II American planners inaugurated the ideas and institutions that underlie our modern international human rights regime Borgwardt finds the key in the 1941 Atlantic Charter and its Anglo American vision of war and peace aims *Die reaktion des amerikanischen verfassungsdenkens auf die bese...* Ernst-rudolf Wolf, 1970 *Foreign Policy at the Periphery* Bevan Sewell, Maria Ryan, 2017-01-17 As American interests assumed global proportions after 1945 policy makers were faced with the challenge of prioritizing various regions and determining the extent to which the United States was prepared to defend and support them Superpowers and developing nations soon became inextricably linked and decolonizing states such as Vietnam India and Egypt assumed a central role in the ideological struggle between the United States and the Soviet Union As the twentieth century came to an end many of the challenges of the Cold War became even more complex as the Soviet Union collapsed and new threats arose Featuring original essays by leading scholars *Foreign Policy at the Periphery* examines relationships among new nations and the United States from the end of the Second World War through the global war on terror Rather than reassessing familiar flashpoints of US foreign policy the contributors explore neglected but significant developments such as the efforts of evangelical missionaries in the Congo the 1958 stabilization agreement with Argentina Henry Kissinger s policies toward Latin America during the 1970s and the financing of terrorism in Libya via petrodollars Blending new internationalist approaches to diplomatic history with newly released archival materials *Foreign Policy at the Periphery* brings together diverse strands of scholarship to address compelling issues in modern world history *Amerikas Deutschlandpolitik im zweiten Weltkrieg; Kriegs- und Friedensziele, 1941-1945* Gunter Moltmann, 1958 **Amerikas Deutschlandpolitik im Zweiten Weltkrieg** Günter Moltmann, 1958 **Identifying the Aggressor Under International Law** Olaoluwa Olusanya, 2006 This book deals with the identification of the aggressor state under International Law This issue raises a deceptively easy question that is how does one distinguish the aggressor state from the victim state in situations involving the unilateral use of force In a straightforward situation where state A attacks state B without any provocation it is clear that state A is the aggressor However confusion begins to arise when state A first attacks state B as a form of anticipatory self defence or when state A first attacks state B as a form of pre emptive self defence or when state A attacks state B in order to prevent state B from committing gross human rights atrocities against its own nationals In all of these latter situations the current rules are unclear and therefore either make it impossible to distinguish between the aggressor state and the victim state or give the aggressor state an unfair advantage over the victim

state This book utilizes general principles of Criminal Law in an attempt to tackle these questions and ultimately to devise a solution for distinguishing between the aggressor and the victim state regardless of the circumstances Attention has also been given to the field of international relations *Soft Power and US Foreign Policy* Inderjeet Parmar, Michael Cox, 2010-03-12 The rise of widespread negative attitudes towards US foreign policy especially due to the war of aggression against Iraq and the subsequent military occupation of the country has brought new attention to the meaning and instruments of soft power In this edited collection an outstanding line up of contributors provides the most extensive discussion of soft power to date Soft power is the use of attraction and persuasion rather than the use of coercion or force in foreign policy It arises from the attractiveness of a country s culture political ideals and policies whereas hard power develops out of a country s military or economic might Soft Power has become part of popular political discourse since it was coined by Harvard s Joseph Nye and this volume features a brand new chapter by Nye outlining his views on soft hard and smart power and offers a critique of the Bush administration s inadequacies He then goes on to examine the challenges for the incoming US president The other contributions to the volume respond to Nye s views from a range of theoretical historical and policy perspectives giving new insights in to both soft power and the concept of power itself This is the most comprehensive and up to date analysis of this key concept in foreign affairs and is essential reading for scholars of US foreign policy public diplomacy international relations and foreign policy analysis Bibliographie Theologie und Frieden: 1.
