Prehistoric Lowland Maya Community and Social Organization Edward B. Kurjack, 1974 Prehistoric Lowland Maya Community and Social Organization Edward B. Kurjack, 1974 **The Lowland Maya Postclassic** Arlen F. Chase, Prudence M. Rice, 2014-11-17 This collection represents a major step forward in understanding the era from the end of Classic Maya civilization to the Spanish conquest *Landscape And Power In Ancient Mesoamerica* Rex Koontz, Kathryn Reese-Taylor, Annabeth Headrick, 2018-02-23 From the early cities in the second millennium BC to the Aztec capital of Tenochtitlan on the eve of the Spanish conquest Ancient Mesoamericans created landscapes full of meaning and power in the center of their urban spaces The sixteenth century description of Tenochtitlan by Bernal Diaz del Castillo and the archaeological remnants of Teotihuacan attest to the power and centrality of these urban configurations in Ancient Mesoamerican history In *Landscape and Power in Ancient Mesoamerica* Rex Koontz Kathryn Reese Taylor and Annabeth Headrick explore the cultural logic that structured and generated these centers Through case studies of specific urban spaces and their meanings the authors examine the general principles by which the Ancient Mesoamericans created meaningful urban space In a profoundly interdisciplinary exchange involving both archaeologists and art historians this volume connects the symbolism of those landscapes the performances that activated this symbolism and the cultural poetics of these ensembles **Die unbekannte Welt der Maya** Linda Schele, David A. Freidel, 1991 **Mathematical Modeling of Social Relationships** Urszula Strawinska-Zanko, Larry S. Liebovitch, 2018-06-07 This edited volume presents examples of social science research projects that employ new methods of quantitative analysis and mathematical modeling of social processes This book presents the fascinating areas of empirical and theoretical investigations that use formal mathematics in a way that is accessible for individuals lacking extensive expertise but still desiring to expand their scope of research methodology and add to their data analysis toolbox *Mathematical Modeling of Social Relationships* professes how mathematical modeling can help us understand the fundamental compelling and yet sometimes complicated concepts that arise in the social sciences This volume will appeal to upper level students and researchers in a broad area of fields within the social sciences as well as the disciplines of social psychology complex systems and applied mathematics **Prehistoric Lowland Maya Community and Social Organisation** Edward B. Kurjack, 1974 **Making Ancient Cities** Andrew Creekmore, Kevin D. Fisher, 2014-04-28 Investigates how the structure and use of space developed and changed in cities and examines the role of different societal groups in shaping urbanism Supplement to the Handbook of Middle American Indians, Volume 1 Victoria Reifler Bricker, Jeremy A. Sabloff, 1982-01-01 The sixteen volume *Handbook of Middle American Indians* completed in 1976 has been acclaimed the world over as the most valuable resource ever produced for those involved in the study of Mesoamerica When it was determined in 1978 that the *Handbook* should be updated periodically Victoria Reifler Bricker well known cultural anthropologist was selected to be series editor This first volume of the *Supplement* is

devoted to the dramatic changes that have taken place in the field of archaeology The volume editor Jeremy A Sabloff has gathered together detailed reports from the directors of many of the most significant archaeological projects of the mid twentieth century in Mesoamerica along with discussions of three topics of general interest the rise of sedentary life the evolution of complex culture and the rise of cities *Archiv für Völkerkunde* ,1990 **Dwelling and Subjectification at the Ancient Urban Center of Chunchucmil, Yucatan, Mexico** Scott Randolph Hutson,2004 *The Archaeology of Yucatán: New Directions and Data* Travis W. Stanton,2014-10-10 This volume was conceived to provide a forum for Mexican and foreign scholars to publish new data and interpretations on the archaeology of the northern Maya lowlands specifically the State of Yucatán *Archaeological Investigations on the Yucatan Peninsula* Edward Wyllys Andrews,1975 *Ancient Maya Settlements at Seibal, Peten, Guatemala* Gair Tourtellot,1982 **Publication** Edward Wyllys Andrews,1980 **Archaeological Research at Blue Creek, Belize** Thomas H. Guderjan,W. David Driver,1995 **Archaeology, Ethnohistory, and Ethnoarchaeology in the Maya Highlands of Chiapas, Mexico** ,1988 *Handbook of Latin American Studies* ,1975 Contains records describing books book chapters articles and conference papers published in the field of Latin American studies Coverage includes relevant books as well as over 800 social science and 550 humanities journals and volumes of conference proceedings Most records include abstracts with evaluations **Latin America: a Catalog of Dissertations** Xerox University Microfilms,1974 **Living with the Ancestors** Patricia Ann McAnany,1995 Ancestor veneration in the Maya lowlands traditionally has been associated with divine kingship and royal genealogies But in this revisionist study Patricia McAnany challenges this view and presents a strong case for the Formative Period roots of ancestor veneration suggesting that it is an ancient agrarian practice linked to the emergence or restrictive patterns of land tenure and unequal access to resources Just as the decipherment of hieroglyphs has given voice to the political strategies of Classic Maya elites so *Living with the Ancestors* gives voice to the agrarian strategies and political struggles of non elite Maya A first approach to a complete history of the Maya it will be important reading for everyone interested in Mesoamerican culture
