Prejudice in Religion Peter Cornwell, 1997 This is a debate on the historical roots of religious prejudice between Anglicans and Roman Catholics based on the Piccadilly Lectures This book examines the meaning of prejudice is it just the label we give to the convictions of people we don't agree with The book asks if unity is only possible when the sharp edges of conviction are blunted A team of contributors reflect on some of the issues raised by the original lectures The issues go beyond the world of Anglo Roman Catholic relations touching the very foundations of society **Advances in the**

Psychology of Religion Michael Argyle, 2013-10-22 This collection of previously unpublished papers written by well known researchers in the psychology of religion is unique in its broad coverage and in its comparison between quite different and strictly theoretical perspectives The subjects range from theoretical analyses of social science perspectives on religion and its methods to reports of experimental correlational or descriptive studies of religious experience and attitudes The emphasis throughout is on the directions in which this work might move in the future *The Routledge Handbook of Religious*

Literacy, Pluralism, and Global Engagement Chris Seiple, Dennis R. Hoover, 2021-12-27 This pioneering handbook proposes an approach to pluralism that is relational principled and non relativistic going beyond banal calls for mere tolerance The growing religious diversity within societies around the world presents both challenges and opportunities A degree of competition between deeply held religious worldview perspectives is natural and inevitable yet at the same time the world urgently needs engagement and partnership across lines of difference None of the world's most pressing problems can be solved by any single actor and as such it is not a question of if but when you partner with an individual or institution that does not think act or believe as you do The authors argue that religious literacy defined as a dynamic combination of competencies and skills continuously refined through real world cross cultural engagement is vital to building societies and states of neighborly solidarity and civic fairness Through examination reflection and case studies across multiple faith traditions and professional fields this handbook equips scholars and students as well as policymakers and practitioners to assess analyze and act collaboratively in a world of deep diversity The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
