**HIS HAND IS BIGGER** Andrew Perry, 2023-10-31 This is the miraculous story of God's healing Not because of those deserving of His grace but to show the power of faith in God through Jesus Christ That faith is as potent today as it was more than two thousand years ago *The Living Church Annual*, 1882

**The Muslim Brotherhood and the West** Martyn Frampton, 2018-02-19 The Muslim Brotherhood and the West is the first comprehensive history of the relationship between the world's largest Islamist movement and the Western powers that have dominated the Middle East for the past century Britain and the United States In the decades since the Brotherhood emerged in Egypt in the 1920s the movement's notion of the West has remained central to its worldview and a key driver of its behavior From its founding the Brotherhood stood opposed to the British Empire and Western cultural influence more broadly As British power gave way to American the Brotherhood's leaders committed to a vision of more authentic Islamic societies oscillated between anxiety or paranoia about the West and the need to engage with it Western officials for their part struggled to understand the Brotherhood unsure whether to shun the movement as one of dangerous fanatics or to embrace it as a moderate and inevitable part of the region's political scene Too often diplomats failed to view the movement on its own terms preferring to impose their own external agendas and obsessions Martyn Frampton reveals the history of this complex and charged relationship down to the eve of the Arab Spring Drawing on extensive archival research in London and Washington and the Brotherhood's writings in Arabic and English he provides the most authoritative assessment to date of a relationship that is both vital in itself and crucial to navigating one of the world's most turbulent regions [The End of the British Empire in the Middle East, 1952—1971](#) Wm. Roger Louis, 2025-02-20 The quarter century after the end of the Second World War and the transfer of power in India in 1947 marked the slow and turbulent dissolution of the British Empire in the Middle East Seeking to capture the period in its full complexity and contradictions acclaimed historian Wm Roger Louis here provides a through going account of the British Empire's gradual decline Unpicking the overlapping motivations of those across Britain the US and the Middle East the book demonstrates how and why enthusiasm for the British involvement in the region waned the chaotic ways in which the withdrawal unfolded and the importance of these events for understanding the region today The book explores the period in full detail from the overthrow of the Musaddiq government in Iran the Egyptian Revolution Sudan's independence and the events of the pivotal year of 1955 that set the stage for the Suez crisis the following year through the pivotal Suez crisis of 1956 itself to the crises of 1957 the Iraqi Revolution of 1958 and the 1967 Arab Israeli war and concluding with the collapse of the British position in Aden and the decision to withdraw from the Gulf a process completed by the end of 1971 This panoramic and comprehensive history draws on six decades work in archives across Europe the Middle East and the US

including those from governmental archives and private papers and in multiple languages complemented by a considerable body of oral history testimony much of it acquired by the author through conversations with contemporary British politicians and officials In so doing the book sheds new light onto the nature and complexity of the British Empire in its final days and the importance of understanding this history today Prelude to Black Saturday C.
