Fatah-Black,2025-10-01 With the rising tide of scholarly and societal interest in the history and legacy of colonialism and slavery this collection offers a much needed diachronic analysis of the cultural representations of the lives and afterlives of those subjected to slavery and indenture It focuses on the history of the neerlandophone space defined as the complex linguistic space spanning former Dutch colonies This collection gives a longue dur e overview with cases from the early modern period to the present day revealing the deep roots of the colonial cultural archive Scholars from a wide variety of disciplines demonstrate how attention to the layered and polyphonic qualities of narratives can reveal silent and disruptive voices in colonial discourse as well as collective emotions and imaginations that have hitherto remained unrecorded in historical sources They discuss different aesthetic poetic and storytelling practices including literature archival and legal documents performance architecture photography and philosophy formed both in the metropolis and by enslaved and indentured peoples in the colonies Loving Samantha Robin Gideon,1996 Born into a world of wealth and comfort

Forthcoming Books Rose Arny, 1992 *The Black Ordeal of Slavery and Slave Trading in the French West Indies, 1625-1715: Culture, terror, and resistance* Clarence J. Munford, 1991 Together with reflections on the slavery capitalism racism causal chain this book reveals the tight bond between the Black West Indies and Africa through analysis of socio political conditions in Africa and of the ethnic origins of diaspora Africans The years from 1625 to 1715 are the time when the scaffolding of the plantation slave economy was erected It triggered the dialectic between the slave mode of extracting surplus labour from captive Africans on the one side and the profit exigencies of nascent capitalism on the other This dialectic made the installation of the capitalist mode of production in the western hemisphere a peculiarly racist phenomenon

Great Pirate Stories Joseph Lewis French, 1922 Great Pirate Stories is a collection of extracts of tales of pirates whether fictional or not there is no clear indication which are and aren't you would have to look up each original book for that The tales range in dates from as early as 1621 to the 19th Century which results in the use of a great range of styles of English language the 1621 account might be a little difficult to read for some due to the more arbitrary use of grammar and spelling of the time Each extract gives a snippet of a particular encounter with pirates whether from the pirate's perspective and standpoint or that of their victims or onlookers to the events Each account is short and whets the appetite for more story before suddenly ending I'm in half a mind to track down each of the original books for more details Some accounts are quite intriguing and bring to mind a number of questions about the content anything from the realism to the accuracy could be questioned down to the motives and what exactly did happen next This book does not confine itself to European based pirates wherever they then roamed but also brings out accounts of Chinese Malay and various other less well known pirate groups at least less well known to me having done little studies of the topic Some pirate names are quite familiar though such as Barbarossa or Morgan If you have an interest in pirates and pirate stories this book is a good little gem that'll unearth other gems for you Carole's Reviews
