There is much more to Astrology than simply the sun sign. Both a science and an art form, astrology is as old as recorded human history. It is the science of possibilities showing the influence that the position and interaction of the planets at the time of birth have on a person's life character and innate potential. *The Complete Book of Astrology* is a concise easy to use guide that introduces and explores the sun signs as well as ascendants, planets, houses, aspects, transits, and other advanced concepts that educate and enlighten.
