Place Between The Tides A Naturalists Reflections On The Salt Marsh

Place Between The Tides A Naturalists Reflections On The Salt Marsh:

A Place between the Tides Harry Thurston, 2004 A Place Between the Tides is an evocative mix of scientific observation and personal memories that captures the tremendous vitality and vulnerability of marshlands For every nature writer there seems to be one special place that demonstrates the ways of the natural world and its relationship with humans For Thoreau it was a pond for Annie Dillard a creek for author Harry Thurston it is the salt marsh where land meets sea one of the most biologically diverse habitats on Earth but one that is increasingly threatened This is the story of Thurston s return to the beloved environment of his boyhood Elegantly moving back and forth in time and deftly interweaving a naturalist s observations with a personal journey he describes the seasons of the marsh over two decades Altogether Thurston documents more than 100 species of fish birds and mammals a myriad of creatures hiding in tidal pools and 70 species of plants

Against the Tides Ronald Rudin, 2021-11-15 For four centuries dykes held back the largest tides in the world in the Bay of Fundy region of New Brunswick and Nova Scotia These dykes turned salt marsh into arable land and made farming possible but by the 1940s they had fallen into disrepair Against the Tides is the never before told story of the Maritime Marshland Rehabilitation Administration MMRA a federal agency created in 1948 to reshape the landscape Although agency engineers often borrowed from long standing dykeland practices they were so convinced of their own expertise that they sometimes disregarded local conditions marginalizing farmers in the process The engineers hubris resulted in tidal dams that compromised some of the region s rivers leaving behind environmental damage This book is a vivid richly detailed account of a distinctive landscape and its occupants revealing the push pull of local and expert knowledge and the role of the state in the postwar era

Canadian Wetlands Rod Giblett, 2014-12-15 In Canadian Wetlands Rod Giblett reads the Canadian canon against the grain critiquing its popular representation of wetlands and proposing alternatives by highlighting the work of recent and contemporary Canadian authors such as Douglas Lochhead and Harry Thurston and by entering into dialogue with American writers The book will engender mutual respect between researchers for the contribution that different disciplinary approaches can and do make to the study and conservation of wetlands internationally

Wetland Cultures Rod Giblett, 2024-06-21 Traditional cultures have a long and vital association with wetlands as sacred places imbued with spiritual and ceremonial significance that provide physical sustenance and sources of materials in paludiculture Ancient Greek and Roman cultures denigrated wetlands as places of disease terror horror the hellish and the monstrous Judeo Christian theology was syncretized with them into the mainstream denigration of wetlands Wetlands are a marginalized community an oppressed minority and non binary queer bodies of water
