**Reorienting Economics** Tony Lawson, 2003 Contemporary economics is characterized by a mismatch between its methods of analysis and the nature of the world it seeks to interpret Despite regular economic crises and ongoing critique of the discipline the drift from political economy into applied mathematics appears to continue unabated In this book Tony

Lawson advocates a realignment of economics with social reality In analyzing mainstream economists misplaced universality the author places ontology at the heart of a reoriented future in which economics is integrated within the wider human and social sciences     **The Palgrave Companion to Chicago Economics** Robert A. Cord,2023-01-01 The University of Chicago has been and continues to be one of the most important global centres for economics With six chapters on themes in Chicago economics and 33 chapters on the lives and work of Chicago economists this volume shows how economics became established at the University how it produced some of the world s best known economists including Frank Knight Milton Friedman and Robert Lucas and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast this volume provides economists especially those interested in macroeconomics and the history of economic thought with an in depth analysis of Chicago economics     Evolutionary Economics: v. 1 Marc R. Tool,2019-07-12 The contributors to this volume focus on the political and value issues that in their shared view underlie the global environmental crisis facing us today They argue that only by transforming our dominant values social institutions and way of living can we avoid ecological disaster     **Thorstein Veblen: Specialized topics** John Cunningham Wood,1993

**The Philosophy of Thorstein Veblen** Stanley Matthew Daugert,1950 Submits a defense of the thesis that Thorstein Veblen formulated and applied to his analysis of human problems Presents the belief that a knowledge of his philosophy will contribute to an understanding of his economic theories     **The Place of Science in Modern Civilization** Thorstein Veblen,2007-03-01 Western culture according to Veblen is unique because of its comprehension of science Above all else he identifies this as the defining characteristic of Western Christian society because all other social forces gather around it But far from proclaiming this cult of science as a great good Veblen instead examines how this peculiarity came to be Why science What will become of a society so engrossed with facts that it neglects other aspects of life like art Readers may find themselves amazed at the degree to which the scientific point of view has colored Western life while students of sociology and anthropology will be fascinated by this reflexive look at scientific culture by a man of science American economist and sociologist THORSTEIN BUNDE VEBLEN 1857 1929 was educated at Carleton College Johns Hopkins University and Yale University He coined the phrase conspicuous consumption Among his most famous works are The Theory of the Leisure Class 1899 The Theory of Business Enterprise 1904 and Imperial Germany and the Industrial Revolution 1915     Thorstein Veblen and the Enrichment of Evolutionary Naturalism Rick Tilman,2007 Tilman argues that evolutionary naturalism provides the philosophical foundations of Veblen s thought He links evolutionary naturalism to Veblen s aesthetics secular humanism sociology of control sociobiology and sociology of knowledge thereby initiating observations regarding the relationship of Veblen s own life to his thinking and his place as a cultural lag theorist Provided by publisher     **The Best Books for Academic Libraries: Social sciences** ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers     *Publications* Duke University. ,1952 *The Reconstruction of Economics* Allan G. Gruchy,1987-06-11 Allan Gruchy the elder statesman of the institutionalist school of economic thought has written a book which is important because it is both insightful and profound Gruchy seeks to identify and to describe the essential unity of institutionalist economic thought He finds the essence of institutionalism in the paradigmatic shift away from the old scientific paradigm of orthodox economics which emphasizes static equilibrium to the new scientific paradigm of institutionalist economics which emphasizes dynamic process Gruchy calls for a reconstruction of economics which is long overdue Review of Social Economy The interpretations and solutions generated by orthodox economics with its emphasis on efficiency and personal market forces have failed to satisfy many economists An alternative framework has been developed in the past eight decades by institutional economists who view the economic system not as a competitive equilibrium to be kept in balance but as an ongoing economic process through which the material needs of its human participants are to be met Although insitutional economics represents a major and growing body of work it has not always been clear how it differs from other approaches In his new book Allan Gruchy considered the dean of institutional economics addresses this problem Pointing up the underlying unity of work done in this field he provides a clear basic statement of what it is all about and what intellectual and social currents have shaped it
