Plan Graphics for the Landscape Designer Tony Bertauski, 2007 By using step by step illustrations this handbook provides an introduction to drawing techniques and includes such tools as software design and digital cameras **Plan Graphics for**

**the Landscape Designer** Tony Bertauski, 2019-01-10 Many professional landscape architects and designers embrace the practice of rendering plan drawings by hand as an artistic approach that supports the design process Tony Bertauski uses abundant illustrations to train aspiring designers in the essential drawing techniques used to craft presentation graphics while learning the essentials of design He guides students through the tools and techniques of drawing that are often overlooked in the classroom so that students can complete assignments on their own outside the lab Student designers will learn to create plans that not only appeal aesthetically but communicate effectively with clients Landschaftsarchitektur visualisieren Elke Mertens, 2009-10-16 Wir verkaufen nicht den Garten wir verkaufen das Bild eines Gartens Dieser Satz eines Landschaftsarchitekten macht deutlich wie wichtig die Vermittlung des Entwurfs an die community an Bauherren und die Öffentlichkeit ist Zeichnungen Modelle Simulationen und Filme kommunizieren die vorgeschlagenen Ideen und Lösungen aber auch die Haltung der kreativ Entwerfenden zur Nutzung von Natur und Umwelt Durch die Fülle von Möglichkeiten der Computerprogramme und der weitergebrachten Handzeichnungen und Modelle sowie durch die starke Konkurrenz innerhalb der Disziplin gibt es heute eine große Vielfalt und Unterschiedlichkeit der visuellen Darstellungen mit vereinbarten Regeln aber auch sehr vielen Freiheiten In drei großen Teilen sieht und prüft das Buch die aktuell gebräuchlichen und verfügbaren Techniken auf ihre Aussage und Berzeugungskraft bei der Anwendung immer auch anhand der Analyse von Beispielen aus internationalen Büros Nach einem einleitenden Blick auf die Entwicklung bis heute werden zunächst systematisch die Darstellungsformen in der zweiten dritten und vierten Dimension in der Fläche im Raum und im zeitlichen Prozess behandelt Der zweite Teil gilt der Abfolge der Darstellungsmodi im Workflow von der ersten Ideenskizze über die Entwurfs und Ausführungsplanung bis hin zum fertigen Objekt Im dritten Teil wird der strategische Einsatz von Visualisierungen im Kontext von Wettbewerben Zukunftsszenarien in der großräumigen Landschaftsplanung usw dargestellt Im Mittelpunkt der Darstellung stehen dabei nicht die bekannten Grundlagen der verwendeten Techniken sondern die Methoden und Formen der visuellen Darstellung in der aktuellen Landschaftsarchitektur Visualizing Landscape Architecture Elke Mertens, 2009-10-16 We don't sell gardens we sell images of gardens This observation on the part of a landscape architect makes it clear just how important it is that a design be effectively communicated to the community clients and the public Drawings models simulations and films communicate the designers proposed ideas and solutions but they also convey their attitude toward the use of nature and the environment With myriad possibilities including computer programs as well as hand drawings and models which continue to be widely used and strong competition in the field there is now a huge variety of visual representations with agreed upon rules but also a great deal of freedom In three large sections

this book sifts through the currently commonplace and available techniques and evaluates them in terms of their informative value and persuasive power always illustrating its points with analysis of examples from international firms An introductory look at the development thus far is followed by a systematic presentation of modes of representation in two three and four dimensions in the plane in space and in the temporal process The second section deals with the sequence within the workflow from the initial sketch through concept and implementation planning all the way to the finished product The third section deals with the strategic use of visualizations in the context of competitions future schemes and large scale landscape planning The focus in this section is not on the familiar use of the relevant techniques but rather on the methods and forms of visual representation in contemporary landscape architecture
