The Pioneer Campfire, in Four Parts George W. Kennedy, 1913 Gender and Generation on the Far Western Frontier Cynthia Culver Prescott, 2016-06 As her family traveled the Oregon Trail in 1852 Mary Ellen Todd taught herself to crack the ox whip Though gender roles often blurred on the trail families quickly tried to re establish separate roles for men and women once they had staked their claims For Mary Ellen Todd who found a secret joy in having the power to set things moving this meant trading in the ox whip for the more feminine butter churn In Gender and Generation on the Far Western Frontier Cynthia Culver Prescott expertly explores the shifting gender roles and ideologies that countless Anglo American settlers struggled with in Oregon s Willamette Valley between 1845 and 1900 Drawing on traditional social history sources as well as divorce records married women s property records period photographs and material culture Prescott reveals that Oregon settlers pursued a moving target of middle class identity in the second half of the nineteenth century Prescott traces long term ideological changes arguing that favorable farming conditions enabled Oregon families to progress from accepting flexible frontier roles to participating in a national consumer culture in only one generation As settlers children came of age participation in this new culture of consumption and refined leisure became the marker of the middle class Middle class culture shifted from the first generation s emphasis on genteel behavior to a newer genteel consumption This absorbing volume reveals the shifting boundaries of traditional women s spheres the complicated relationships between fathers and sons and the second generation s struggle to balance their parents ideology with a changing national sense of class consciousness *Music in the Westward Expansion* Laura Dean, 2022-06-06 Over 400 000 people moved their families in search of a better life in the American West during the Westward Expansion The pioneers made room for musical instruments with their guns food and tools while taking only the minimal necessities that would fit into modest wagons During what seemed like an interminable dusty journey music was often the sole source of light and happiness for these exhausted travelers This book examines the roles of music in the Westward Expansion and the diverse cultural landscape of the Old West including northern Cheyenne courtship flute makers fiddle playing explorers dancing fur trappers hymn singing missionaries frontier flutists girls with guitars wagon driving balladeers poetic cowboys singing farmers musical miners and preaching songsters **The National Union Catalog, Pre-1956 Imprints** Library of Congress, American Library Association.
