Places of Performance Marvin Carlson, 1989 Explores the cultural social and political aspects of theatrical architecture from the theatres of ancient Greece of the present Event-Space Dorita Hannah, 2018-07-11 As the symbolists constructivists and surrealists of the historical avant garde began to abandon traditional theatre spaces and embrace the more contingent locations of the theatrical and political event the built environment of a performance became not only part of the event but an event in and of itself Event Space radically re evaluates the avant garde s championing of nonrepresentational spaces drawing on the specific fields of performance studies and architectural studies to establish a theory of performative architecture Event was of immense significance to modernism s revolutionary agenda resisting realism and naturalism and simultaneously the monumentality of architecture itself Event Space analyzes a number of spatiotemporal models central to that revolution both illuminating the history of avant garde performance and inspiring contemporary approaches to performance space

Dramatic Spaces Jennifer Low, 2015-07-16 For literary scholars plays are texts for scenographers plays are performances Yet clearly a drama is both text and performance Dramatic Spaces examines period specific stage spaces in order to assess how design shaped the thematic and experiential dimensions of plays This book highlights the stakes of the debate about spatiality and the role of the spectator in the auditorium if audience members are co creators of the drama how do they contribute The book investigates Roman comedy and Shakespearean dramas in which the stage space itself constituted the primary scenographic element and actors bodies shaped the playing space more than did sets or props the use of paid applauders in nineteenth century Parisian theaters and how this practice reconfigured theatrical space transactions between stage designers and spectators including work by L szl Moholy Nagy

William Ritman and Eiko Ishioka *Dramatic Spaces* aims to do for stage design what reader response criticism has done for the literary text with specific case studies on *Coriolanus* *The Comedy of Errors* *Romeo and Juliet* *Tales of Hoffman* *M.
