In 2024, the U.S. News and World Report revealed modifications to the criteria and methodology for its annual college rankings. The latest rankings now prioritize social mobility for students, allocating 2.5% of an institution's score to first-generation graduation rate performance and 5% to manageable borrower's debt. These adjustments represent increases from the criteria used in previous years.

Some of the most significant criteria considered in 2024 and the comparison to the 2022-2023 weighting are as follows.

## Peer Assessment

## Graduation Rates

## Financial Resources per Student

## Faculty Salaries

## Standardized Tests

\*The two different percentages represent 2024 National Universities Weight for Schools With Usable SAT/ACT and 2024 National Universities Weight for Schools Without Usable SAT/ACT, respectively.
