market's hottest most profitable sector but it can be a roller coaster ride. Companies with great ideas can end up going nowhere and some that dominate today will be sold at fire sale prices in five years. Sure things can become sore things very rapidly. Nothing But Net provides the knowledge and insights you need to understand what's really hot to know what's not and to outperform other investors consistently and decisively. Famous for his smart savvy and unique approach to Tech stock investing, Mark Mahaney provides his 10 proven rules for succeeding as a long term Tech stock investor explaining everything he's learned during almost 25 years of analyzing internet stocks including Why revenue growth and customer metrics not earnings are what matter most to Tech investors. How to invest not trade in the great growth opportunities that lie ahead. How to determine when high valuations are a warning sign and when they signal an opportunity. I've watched the rise of some of the leading companies of today: Facebook, Amazon, Netflix, Google and the fall of some of the leading companies of yesterday: Yahoo, eBay and AOL. Mahaney writes: Figuring out which companies really are going to be dominant franchises is an extremely hard thing to do. But those who accomplished this were arguably able to generate some of the best portfolio returns in the stock market over the past generation. Nothing But Net provides powerful advice for the next two decades: lessons you can start applying today and use for years to come. **Florida Law Review**, 2016-03
