ownership class Wetzel provides a solution to that failure by showing how a democratic outcome can be built into the method of struggle for social change giving working people the means to ensure they will end up in control of the labor process and the larger society But this isn't the old white guy in a hard hat unionism of the previous century The working class has changed Life under capitalism has changed How we think about unionism must also change While the political and capitalist class wring their hands over the environmental crisis and economic inequality we can see the immediate appeal of a union movement with an expanded mission to wrest control from the wealthy and powerful before they cost shift us into extinction
