Plug-in Vehicles, Plugged in Policy? Great Britain: Parliament: House of Commons: Transport Committee,2012-09-20 Consumer demand for plug in vehicles remains very low and the Government grant to encourage demand may not be proving effective The Government must do more to show that its plug in vehicle strategy is a good use of public money Carbon emissions from transport must be reduced if the UK is to meet its climate change targets but public money must be targeted on effective policies So far Department for Transport expenditure on plug in cars some 11 million has benefited just a handful of motorists There is a risk that the Government is basically subsidising second cars for affluent households It is also unclear whether the provision of public charging infrastructure encourages demand for plug in cars Indeed the Government does not even have a register of all the chargepoints installed at public expense Strategy David Mackay,Mikko Arevuo,Maureen Meadows,2023 A comprehensive accessible and insightful guide designed specifically for students on a strategy or strategic management course This text puts the implementation of strategy centre stage in order to empower tomorrow s business professionals to think talk and act like a strategist The Electrical World ,1896 **Managing Urban Logistics** Rosario Macario,Vasco Reis,2024-03-21 Managing Urban Logistics provides new insights based on the most recent research theories and developments in technological and ICT solutions contemporary corporate trends the re evaluation of the role of authorities and much more The book shows how to manage these complex urban logistics issues using a long term systemic

perspective where urban freight distribution is an integral part of the entire urban mobility system It examines the convergence points between mass and customized deliveries thus modeling the decision processes trade offs and tolerances behind these processes to enable a more fluid sharing of urban space Users will find an approach that tackles these issues from an empirical viewpoint that is based on analysis from a wide set of cases in urban environments around the world A fresh and unique multidisciplinary approach that is based on solid theoretical background and a pragmatic management standpoint makes this book a must have for those involved in urban logistics Blends theory with real world cases to create viable solutions Uses an interdisciplinary approach to city logistics in a structured and organized way that is useful for all stakeholders Shows how to identify logistics profiles and build a logistical map of the city Examines the technological solutions that can be used to support different business models adopting a rational innovative problem solving approach to the movement of urban goods

Environmental Sustainability at Historic Sites and Museums Sarah

Sutton,2015-03-26 Growing public interest in environmental sustainability is a gift to historic sites and museums It is an invitation to use our knowledge collections and sites to discuss how human practices and interactions with the environment in past were and were not environmentally sustainable Being green still has a great deal to do with using less energy buying less stuff and recycling more but now sustainability just as important in strategic planning interpretation and public engagement Environmental Sustainability at Historic Sites and Museums details how to go green at every level of your organization Why is this important Because it is no longer a choice environmental awareness as an amenity has become climate awareness as a necessity Seas and storms threaten historic coastal communities Flooding increasingly threatens sites near rivers What structural precautions collections care changes and insurance approaches should you take for the new normal What self sufficiencies must you develop What role do you have in community responses Let environmental sustainability change the way you operate engage the community and fulfill your mission Let this book introduce you to the topic if you re new to it or take you to the next level of performance if you ve been doing this awhile From one of the leading experts in the sustainability practices in museums this book explains how engaging in sustainable practices will benefit not only the planet but also the people you serve your programs and even your profits To demonstrate this Sutton provides case studies from museums at the forefront of the green movement
