*The Age of Prediction* Igor Tulchinsky, Christopher E. Mason, 2023-08-22 The power of the ever increasing tools and algorithms for prediction and their paradoxical effects on risk The Age of Prediction is about two powerful and symbiotic trends the rapid development and use of artificial intelligence and big data to enhance prediction as well as the often paradoxical effects of these better predictions on our understanding of risk and the ways we live Beginning with dramatic advances in quantitative investing and precision medicine this book explores how predictive technology is quietly reshaping our world in fundamental ways from crime fighting and warfare to monitoring individual health and elections As prediction grows more robust it also alters the nature of the accompanying risk setting up unintended and unexpected consequences The Age of Prediction details how predictive certainties can bring about complacency or even an increase in risks genomic analysis might lead to unhealthier lifestyles or a GPS might encourage less attentive driving With greater predictability also comes a degree of mystery and the authors ask how narrower risks might affect markets insurance or risk tolerance generally Can we ever reduce risk to zero Should we even try This book lays an intriguing groundwork for answering these fundamental questions and maps out the latest tools and technologies that power these projections into the future sometimes using novel cross disciplinary tools to map out cancer growth people s medical risks and stock dynamics Electrical Review ,1896

**Confronting the Odds** Bessie House-Soremekun, 2002 An interest in the history of African American entrepreneurship has produced a number of studies of economic development on the national level but very few have examined this growth at the local level Against All Odds was written to bridge that gap Bessie House Soremekun provides a historical analysis of black entrepreneurship in Cleveland Ohio from the early 1800s to the present day Soremekun s statistical analysis of the factors that contributed to the success of African American businesses in Cleveland is supported by extensive research and her policy recommendations about how entrepreneurship could be stimulated through public and private programs are thought provoking In addition examining historical and current trends of African American entrepreneurship Soremekun presents brief biographies of several successful entrepreneurs among them best selling author George Fraser and internationally acclaimed architect Robert P Madison The book also documents the life histories of business owners who have had unsuccessful business experiences compares black male and female business owners and offers insights into why some businesses succeed while others fail Against All *Digest; Review of Reviews Incorporating Literary Digest* ,1897
