and local sector The chapters in Section II provide an overview of the various components of state and local revenue systems and how they reacted to the Great Recession They analyze the diverse forms of taxes and charges in detail prescribe remedies and alternatives and examine the implications for future revenue performance Chapters in Section III turn to spending borrowing and financial management in the state and local sector The focus is on the big six service delivery sectors education health care human services transportation pensions and housing Section IV is a set of chapters that look ahead and speculate about how the state and local government sector's money raising spending and service delivery structures will adjust to the new circumstances

Effective Federal Tax Rates Under Current Law, 2001 To 2004 Ed Harris, 2008 Examines how effective federal tax rates will change over the coming decade under current law that is if the provisions of tax laws enacted in 2001 2002 2003 phase in phase out sunset as scheduled Under current law the assumption that incomes grow at a constant rate the overall effective federal tax rate drops from 21.5% in 2001 to 19.6% in 2004 It then rises irregularly over the subsequent decade as tax provisions phase in out The increases in the effective tax rate between 2005 2010 between 2011 2014 occur primarily because rising real incomes move taxpayers into higher tax brackets the alternative minimum tax affects more taxpayers over time Charts tables
