Today the market and the companies are implementing Marketing 4.0. This new marketing approach modifies both the business rules and the channels by changing the way to dialogue, interact and relation with consumers. The present Research Topic brings together 30 studies by 76 authors who analyzed the relevance of consumer behavior changes under this new paradigm using different theoretical and methodological frameworks. These different papers, mainly constituting original research, examine a variety of sub-topics including online and mobile environments, value co-creation, internal marketing strategies and diverse industries and product markets. Given this broad selection of papers, we encourage readers to draw their own conclusions about the complex phenomena of consumer behavior. Our hope is that these different perspectives will cover various gaps in the field and prompt discussion among the audience of *Frontiers in Psychology*.
