Electric Vehicle Integration into Modern Power Networks Rodrigo Garcia-Valle, João A. Peças Lopes, 2012-11-29 Electric Vehicle Integration into Modern Power Networks provides coverage of the challenges and opportunities posed by the progressive integration of electric drive vehicles Starting with a thorough overview of the current electric vehicle and battery state of the art this work describes dynamic software tools to assess the impacts resulting from the electric vehicles deployment on the steady state and dynamic operation of electricity grids identifies strategies to mitigate them and the possibility to support simultaneously large scale integration of renewable energy sources New business models and control management architectures as well as the communication infrastructure required to integrate electric vehicles as active demand are presented Finally regulatory issues of integrating electric vehicles into modern power systems are addressed Inspired by two courses held under the EES UETP umbrella in 2010 and 2011 this contributed volume consists of nine chapters written by leading researchers and professionals from the industry as well as academia

Intelligent and Fuzzy Systems Cengiz Kahraman, Selcuk Cebi, Basar Oztaysi, Sezi Cevik Onar, Cagri Tolga, Irem Ucal Sari, Irem Otay, 2025-07-25 Artificial Intelligence in Human Centric Resilient Sustainable Industries This book focuses on benefiting artificial intelligent tools in our business and social life under emerging conditions Human centric resilient and sustainable industries are built on ideals like human centricity ecological advantages or social benefits The mission of human centric artificial intelligence is to improve people s lives by offering solutions that boost productivity accessibility to resources security well being and general quality of life The latest intelligent methods and techniques on human centric resilient and sustainable industries are introduced by theory and applications This book covers the chapters of world wide known experts on machine learning medical image processing process intelligence process mining and others The intended readers are intelligent systems researchers lecturers M Sc and Ph D students trying to develop approaches giving human needs values and viewpoints top priority through artificial intelligent systems

Automation, Control and Energy Efficiency in Complex Systems Hamid Khayyam, 2020-12-22 This book is aimed at serving researchers engineers scientists and engineering graduate and Ph D students of engineering and physical science together with individuals interested in engineering and science This book focuses on the application of engineering methods to complex systems including transportation building and manufacturing with approaches representing a wide variety of disciplines of engineering and science Throughout the book great emphases are placed on engineering applications of complex systems as well as the methodologies of automation including artificial intelligence automated and intelligent control energy analysis energy modelling energy management and optimised energy efficiency The significant impact of recent studies that have been selected for presentation are of high interest in engineering complex systems An attempt has been made to expose the reading audience of engineers and researchers to a broad range of theoretical and practical topics The topics contained in the present book are of speci c interest to engineers who are seeking

expertise in transportation building and manufacturing technologies as well as mathematical modelling of complex systems engineering approaches to engineering complex problems automation via artificial intelligence methods automated and intelligent control and energy systems The primary audience of this book are researchers graduate students and engineers in mechanical engineering control engineering computer engineering electrical engineering and science disciplines In particular the book can be used for training graduate and PhD students as well as senior undergraduate students to enhance their knowledge by taking a graduate or advanced undergraduate course in the areas of complex systems control systems energy systems and engineering applications The covered research topics are also of interest to engineers and academia who are seeking to expand their expertise in these areas

Proceedings of the 2nd International Conference on Emerging Technologies and Intelligent Systems Mohammed A. Al-Sharafi, Mostafa Al-Emran, Mohammed Naji Al-Kabi, Khaled Shaalan, 2022-12-12 This book sheds light on the recent research directions in intelligent systems and their applications It involves four main themes artificial intelligence and data science recent trends in software engineering emerging technologies in education and intelligent health informatics The discussion of the most recent designs advancements and modifications of intelligent systems as well as their applications is a key component of the chapters contributed to the aforementioned subjects

Protecting EU Consumers in Internet of Things Ecosystems Christof Koolen, 2025-10-21 The number of devices being connected to the internet is growing rapidly This trend referred to as the Internet of Things IoT reflects the gradual transformation of everyday objects into smart devices These smart devices are capable of collecting data from their surroundings and sharing that data over the internet As a result the development of the IoT raises extensive legal questions from a consumer protection perspective First the functionality of smart devices challenges consumer autonomy and the average consumer's ability to make well informed transactional decisions Second concerns remain about consumer choice as consumers can't easily switch due to interoperability limitations Third consumer privacy is threatened by the data driven nature of the IoT Protecting EU Consumers in Internet of Things Ecosystems explores solutions to these challenges by critically analyzing the interplay between EU consumer law EU competition law and EU data privacy law aiming to balance innovation and consumer protection in IoT ecosystems At a time when society must question how the benefits of IoT can be harnessed for the greater good rather than posing a threat to consumers businesses and governments this volume offers valuable insights for academics policymakers businesses and anyone interested in understanding the impact of technology on our daily lives

Innovative Computing and Communications Aboul Ella Hassanien, Sameer Anand, Ajay Jaiswal, Prabhat Kumar, 2025-09-30 This book includes high quality research papers presented at the Eighth International Conference on Innovative Computing and Communication ICICC 2025 which is held at the Shaheed Sukhdev College of Business Studies University of Delhi Delhi India on 14-15 February 2025 Introducing the innovative works of scientists professors research scholars students and industrial experts in the field of computing and communication the book promotes the transformation

of fundamental research into institutional and industrialized research and the conversion of applied exploration into real time applications

Road Trips Across America Ethan M. Sawyer, 2025-05-27 Discover the ultimate American adventure one scenic drive at a time Whether you dream of cruising California's Pacific Coast Highway exploring the historic Blue Ridge Parkway or uncovering hidden gems in the heart of the Midwest Road Trips Across America is your all in one guide to unforgettable journeys across all 50 states Perfect for solo travelers couples families and RV nomads this road trip bible features expertly curated routes must see attractions and local travel tips to help you build your dream itinerary coast to coast Inside you'll find Handpicked scenic drives through national parks coastal highways and mountain roads Detailed itineraries by region season and interest from nature escapes to historic tours Local favorites off the beaten path stops and hidden roadside wonders Budget tips lodging suggestions and essential road trip hacks Family friendly pet friendly and photography worthy detours in every state Whether you're planning a quick weekend getaway or the bucket list road trip of a lifetime this guide will help you make every mile memorable Hit the open road and let the adventure begin

City of Corona Electric Vehicle Charging Infrastructure Tracy Martin, Corona (Calif.). Department of Water and Power, 2019

Energy Efficiency of Modern Power and Energy Systems Shady H E Abdel Aleem, Murat Erhan Balci, Muhyaddin Jamal Hosin Rawa, 2024-08-15 Energy Efficiency and Management of Power and Energy Systems introduces students and researchers to a broad range of power system management challenges technologies and solutions This book begins with an analysis of system technology's current state the most pressing problems and the background to challenges in integrating renewable energy sources Technologies including smart grids green building and worker requirements are covered Subsequent chapters break down potential management solutions including specific problem solving for solar wind and hybrid systems Finally specific case studies from a global geographical range zero in on critical questions facing the present industry Providing meticulously researched literature reviews for guiding deeper reading Energy Efficiency and Management of Power and Energy Systems leads readers from contextual understanding to specific case studies and solutions for sustainable power systems Addresses the challenges and solutions related to integrating renewable energy sources into the power grid focusing on maintaining power quality and enhancing energy efficiency Provides a comprehensive reference with extensive guidance on deeper reading Develops understanding and solution design using case studies from a global range of geographies with differing power needs and resources Guides readers through evaluation and analysis of the capabilities and limitations of a range of modern technologies

International Conference on Innovative Computing and Communications Aboul Ella Hassanien, Oscar Castillo, Sameer Anand, Ajay Jaiswal, 2023-10-25 This book includes high quality research papers presented at the Sixth International Conference on Innovative Computing and Communication ICICC 2023 which is held at the Shaheed Sukhdev College of Business Studies University of Delhi Delhi India on February 17 18 2023 Introducing the innovative works of scientists professors research scholars students and industrial experts in the field
