**Play Bigger** Al Ramadan, Dave Peterson, Christopher Lochhead, Kevin Maney, 2016-06-14 The founders of a respected Silicon Valley advisory firm study legendary category creating companies and reveal a groundbreaking discipline called category design Winning today isn't about beating the competition at the old game It's about inventing a whole new game defining a new market category developing it and dominating it over time You can't build a legendary company without building a legendary category If you think that having the best product is all it takes to win you're going to lose In this farsighted pioneering guide the founders of Silicon Valley advisory firm Play Bigger rely on data analysis and interviews to understand the inner workings of category kings companies such as Amazon Salesforce Uber and IKEA that give us new ways of living thinking or doing

business often solving problems we didn't know we had. In *Play Bigger*, the authors assemble their findings to introduce the new discipline of category design. By applying category design, companies can create new demand where none existed, conditioning customers' brains so they change their expectations and buying habits. While this discipline defines the tech industry, it applies to every kind of industry and even to personal careers. *Crossing the Chasm* revolutionized how we think about new products in an existing market. *The Innovator's Dilemma* taught us about disrupting an aging market. Now *Play Bigger* is transforming business once again, showing us how to create the market itself.

**The Strategy of the Smartphone Industry. A Comparative Analysis of Apple, Sony and Xiaomi** Andreas Kauerhof, 2015-11-20 Seminar paper from the year 2015 in the subject Business economics Business Management Corporate Governance grade 1.7 University of applied sciences Munich Wirtschaft MBA course Strategic Management language English abstract Mobile phones have become an everyday necessity in people's lives and the Smartphone market attracts a lot of companies and has become a highly competitive environment. Apple, Sony and Xiaomi apply different strategies to sell smartphones as this essay demonstrates. This assignment begins with a basic understanding of the mobile phone industry. It gives an overview of the market size, market share and the future growth projections. The following chapters use common strategic management tools to analyze the smartphone industry and its driving forces. This work also provides current data about business units with respect to sales revenue and market shares for the core products of Apple, Sony and Xiaomi. The similarities, differences, advantages and disadvantages of each strategy are discussed in chapter three. Apple, Sony and Xiaomi apply different strategies in their smartphone business units. The three competitors achieve different numbers in sales or profitability. Some brands seem to be more attractive for customers than others. Their disadvantages and advantages are discussed and compared here.
