Police Administration And Management Criminal Justice Series:

Document Retrieval Index, 1974 **Monographic Series** Library of Congress, 1975 **Subject Catalog** Library of Congress, Criminal Evidence Edward J. Imwinkelried, 1979 Forensic Criminology Wayne Petherick, Brent E. Turvey, Claire E. Ferguson, 2009-07-30 Forensic Criminology gives students of criminology and criminal justice an introduction to the forensic realm and the applied forensic issues they will face when working cases within the justice system. It effectively bridges the theoretical world of social criminology with the applied world of the criminal justice system. While most of the competing textbooks on criminology adequately address the application and the social theory to the criminal justice system, the vast majority do not include casework or real world issues that criminologists face. This book focuses on navigating casework in forensic contexts by case working criminologists rather than broad social theory. It also allows criminology criminal justice instructors outside of the forensic sciences the ability to develop and instruct a core course that might otherwise be considered beyond their expertise or in conflict with forensic courses taught in chemistry, biology, or medical programs at their institutions because of its focus on criminology and criminal justice careers. With its practical approach, this textbook is well suited for forensic criminology subjects being taught and developed in law, criminology, and criminal justice programs around the world. Approaches the study of criminology from an applied standpoint, moving away from the purely theoretical. Contains relevant and contemporary case examples to demonstrate the application of forensic criminology. Provides an integrated philosophy with respect to criminology, forensic casework, criminal investigations, and the law. Useful for students and professionals in the area of criminology, criminal justice, criminal investigation, forensic science, and the law. Opolot, 2001-04-25 Establishes a composite of police administration in Africa as an evolving profession looking at relationships between scholars and practitioners in police administration and interactions between administration of the local police forces and those of the national or central government. Coverage encompasses the administration of pre-colonial and local colonial policing, the reduced role of the district commissioner during the post-colonial period, colonial administrative ideals and practices, and the changing crime problem. A final chapter looks at the future of police administration in African countries. Includes discussion questions and student exercises. c Book News Inc American Book Publishing Record Cumulative, 1950-1977 R.R. Bowker
