Policing Rio De Janeiro Repression :

Policing Rio de Janeiro, 1993-09 When in 1808 members of the Portuguese royal entourage arrived in Rio de Janeiro the capital of a colony most had previously known only through administrative reports and balance sheets they encountered a hostile and dangerous population that included a large number of African slaves One of the institutions they brought from Lisbon was the General Intendancy of Police which was the foundation on which the city's police institutions were built The government met the challenge of bringing the inhabitants of Rio de Janeiro under control with a repressive apparatus that grew along with the problem it was created to solve Policing Rio de Janeiro is a history of one of the fundamental institutions of the modern world through which the power of the state intrudes on public space to control and direct behavior It is also a study of the way people resisted the repressive arm of the state including heretofore unreported cases of slave rebellion as well as forms of everyday resistance The author shows how the historical development of the police of Rio de Janeiro through a dialectic of repression and resistance was part of a more general transition from the traditional application of control through private hierarchies to the modern exercise of power through public institutions Using the rich records which include internal correspondence and official reports of the police system and its civilian counterparts the judicial and jail systems the author explores the point at which repression and resistance collided on the squares streets and back alleys of Brazil's capital city The resulting disturbances served as a catalyst for the formation of institutions and procedures that provided a veneer of modernity over traditional attitudes and relationships protecting and strengthening them In a conceptual context that includes the ideas of Foucault Weber and Gramsci the author goes beyond institutional history to examine the changing social conditions of Rio de Janeiro and the exercise of power by its elites **Policing Rio de Janeiro** Thomas H.

Holloway, 1993 It is also a study of the way people resisted the repressive arm of the state including heretofore unreported cases of slave rebellion as well as forms of everyday resistance The author shows how the historical development of the police of Rio de Janeiro through a dialectic of repression and resistance was part of a more general transition from the traditional application of control through private hierarchies to the modern exercise of power through public institutions Using the rich records which include internal correspondence and official reports of the police system and its civilian counterparts the judicial and jail systems the author explores the point at which repression and resistance collided on the squares streets and back alleys of Brazil's capital city A Southern Criminology of Violence, Youth and Policing Roxana Pessoa Cavalcanti, 2020-03-19 A Southern Criminology of Violence Youth and Policing examines public experiences of insecurity and the social impacts of security programmes that aim to address violence in Brazil This book contributes to the emerging field of southern criminology by engaging with the perils faced by people living in favelas in Brazil and critically investigating the discourse of state actors It combines original ethnographic data with critical analysis to expand understandings of violence and control in urban and postcolonial contexts This study challenges dominant practices and

notions of security and control Its objective is to decolonise knowledge and shed light on issues relating to policing coercion and the great socioeconomic historical and spatial inequalities that shape the lives of millions of people in the Global South The findings of this book expose the exacerbation of social problems by the expansion of the penal and crime industry unsettling the applicability and universalism of mainstream managerial criminology The evidence reveals that new modes of securitisation have not addressed long standing issues of sexism racism classism and brutalisation in the police Moreover through the increasing use of methods of control and incarceration security programmes have failed to prevent diverse forms of violence and challenge the expansion of organised crime Instead they have exacerbated the inequalities that affect the most marginalised populations Written in a clear and direct style this book will appeal to students and scholars in criminology sociology cultural studies social theory and those interested in learning about the social injustices that exists in the Global South

policing organizations across the globe Police Abuse in Contemporary Democracies Michelle D. Bonner,Guillermina Seri,Mary Rose Kubal,Michael Kempa,2018-03-28 This volume offers a much needed analysis of police abuse and its implications for our understanding of democracy Sometimes referred to as police violence or police repression police abuse occurs in all democracies It is not an exception or a stage of democratization It is this volume argues a structural and conceptual dimension of extant democracies The book draws our attention to how including the study of policing into our analyses strengthens our understanding of democracy including the persistence of hybrid democracy and the decline of democracy To this end the book examines three key dimensions of democracy citizenship accountability and socioeconomic in equality Drawing from political theory comparative politics and political economy the book explores cases from France the US India Argentina Chile South Africa Brazil and Canada and reveals how integrating police abuse can contribute to a more robust study of democracy and government in general The Global Making of Policing Jana Hönke,Markus-Michael Müller,2016-08-12 This edited volume analyses the global making of security institutions and practices in our postcolonial world The volume will offer readers the opportunity to gain a deeper understanding of the global making of how security is thought of and practiced from US urban policing diaspora politics and transnational security professionals to policing encounters in Afghanistan Palestine Colombia or Haiti It critically examines and decentres conventional perspectives on security governance and policing In doing so the book offers a fresh analytical approach moving beyond dominant one sided perspectives on the transnational character of security governance which suggest a diffusion of models and practices from a Western centre to the rest of the globe Such perspectives omit much of the experimenting and learning going on in the post colony as well as the active agency and participation of seemingly subaltern actors in producing and co constituting what is conventionally thought of as Western policing practice knowledge and institutions This is the first book that studies the truly global making of security institutions and practices from a postcolonial perspective by bringing together highly innovative in depth empirical cases studies from across the globe It will be of particular interest to students and scholars interested in International Relations and Global Studies critical Security Studies Criminology and Postcolonial Studies **Violence and Crime in Latin America** Gema Santamaría,David Carey,2017-02-21 According to media reports Latin America is one of the most violent regions in the world a distinction it held throughout the twentieth century The authors of Violence and Crime in Latin America contend that perceptions and representations of violence and crime directly impact such behaviors creating profound consequences for the political and social fabric of Latin American nations Written by distinguished scholars of Latin American history sociology anthropology and political science the essays in this volume range from Mexico and Argentina to Colombia and Brazil in the twentieth and twenty first centuries addressing such issues as extralegal violence in Mexico the myth of indigenous criminality in Guatemala and governments selective blindness to violent crime in Brazil and Jamaica The authors in this collection examine not only the social construction and political visibility of violence and crime in Latin

America but the justifications for them as well Analytically and historically these essays show how Latin American citizens have sanctioned criminal and violent practices and incorporated them into social relations everyday practices and institutional settings At the same time the authors explore the power struggles that inform distinctions between illegitimate versus legitimate violence Violence and Crime in Latin America makes a substantive contribution to understanding a key problem facing Latin America today In its historical depth and ethnographic reach this original and thought provoking volume enhances our understanding of crime and violence throughout the Western Hemisphere *Police and State Crime in the Americas* Daniel Gascón, Sebastián Sclofsky, Xavier Perez, Jhon Sanabria, Analicia Mejia Mesinas, 2024-02-24 This book advances a much needed postcolonial framework in analyzing the police It seeks to deepen our understanding of the police role in maintaining Western global domination throughout the American region despite the violent end of colonial rule Building on Chevigny's 1995 classic study this book seeks to draw renewed attention to the role of police in perpetrating state violence and serving as the tip of the spear of state power It seeks to understand the construction of marginality and the multiple and intersecting structures of colonial domination before shining a light directly on the crimes of the state in an attempt to hold criminal state organizations to account It draws on interdisciplinary perspectives and methodologies that center marginalized and colonized experiences and allows for the development of countercolonial knowledge It speaks to academics and students in criminology sociology political science and law as well as to ethnic and area studies programs such as Chicano Latino and Latin American Studies and to police administrators and policymakers Effective Crime Reduction Strategies James F. Albrecht, Dilip K. Das, 2011-02-22 The International Police Executive Symposium IPES www.ipes.info coordinates annual international conferences to evaluate critical issues in policing and recommend practical solutions to law enforcement executives deployed across the globe Drawn from the 2005 proceedings hosted by the Czech Republic in Prague Effective Crime Reduction Strategie *Das Argument*, 2005 Capoeira Matthias Röhrig Assunção, 2005 Capoeira is an Afro Brazilian martial art now spreading over the rest of the world and this book the only complete history of the art in the English language traces the history of the martial art and examines its influence **Democratic Policing and Accountability** Errol Mendes, 1999 Honourable Senior Judge Gerald S Lapkin *Die Sklavenbefreiung in Brasilien, eine soziale Frage für die Kirche?* Katharina Bosl, Katharina Bosl von Papp, 1999 **Political Policing** Martha Knisely Huggins, 1998 Reconstructing eighty years of history Political Policing examines the nature and consequences of U S police training in Brazil and other Latin American countries With data from a wide range of primary sources including previously classified U S and Brazilian government documents Martha K Huggins uncovers how U S strategies to gain political control through police assistance in the name of hemispheric and national security has spawned torture murder and death squads in Latin America After a historical review of policing in the United States and Europe over the past century Huggins reveals how the United States in order to protect and strengthen its position in the world system has used police assistance to

establish intelligence and other social control infrastructures in foreign countries The U S encouraged centralization of Latin American internal security systems Huggins claims has led to the militarization of the police and in turn to an increase in state sanctioned violence Furthermore Political Policing shows how a domestic police force when trained by another government can lose its power over legitimate crime as it becomes a tool for the international interests of the nation that trains it Pointing to U S responsibility for violations of human rights by foreign security forces Political Policing will provoke discussion among those interested in international relations criminal justice human rights and the sociology of policing

Jahrbuch der historischen Forschung in der Bundesrepublik Deutschland ,2009 The Practice of Politics in Postcolonial Brazil Roger Alan Kittleson,2006 The Practice of Politics in Postcolonial Brazil traces the history of high and low politics in nineteenth century Brazil from the vantage point of the provincial capitol of Porto Alegre Kittleson investigates the ways in which lower classes in this area manipulated emerging ideologies to secure limited political inclusion that was unavailable elsewhere **In War, Those who Die are Not Innocent ('Na Guerra, Quem Morre Não É Innocente')** Saima Husain,2007 This book concerns itself with the implementation of human rights strategies within the state police forces of Rio de Janeiro as an attempt to improve policing and enhance police compliance with human rights standards For the sake of this research police human rights strategies have been defined as those laws policies projects or programs that implicitly or explicitly aim to improve police compliance with human rights values standards and norms The understanding that as state agents the police are supposed to uphold the law which includes human rights yet they are often involved in human rights violations has led to a realization of the importance of implementing human rights within the police and increasing police compliance with human rights standards It is not enough to document human rights violations committed by the police and to demand that these officers be held accountable there has to be an attempt to get police officers to understand human rights and to respect people s human rights while performing their duties so that human rights violations at the hands of the police occur less frequently What strategies have been created to improve the police and increase police compliance with human rights standards How have these strategies been implemented How do they influence the reality of policing What are the societal and institutional factors that facilitate or impede the implementation of these strategies It is these questions and the lack of answers available thereto that inspired this research **Beyond the Pale of Pity** R. S. Rose,1998 The first of three volumes providing a historical and sociological study of the development of the modern death squads that have dominated Brazil s politics since the 1950s Traces the origins of the down directed class violence usually associated with the police to the greed of 16th century slaveowners Much of the information comes from anonymous sources
