Policy Politics Canada Carolyn Tuohy, Carolyn J. Tuohy, 1992-06-11 A comparative perspective on the distinctive feature of the Canadian policy process enabling conflict resolution **Power, Politics, and Principles** Taylor

Hollander, 2018-01-01 Power Politics and Principles gets to the root of the policy making process revealing how a wartime order forced employers to the collective bargaining table and marked a new stage in Canadian industrial relations

International Bibliography of the Social Sciences, 1994 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences Designing Public Policies Michael Howlett, 2023-12-22 The third edition of this highly regarded book provides a concise and accessible introduction to the principles and elements of policy design in contemporary governance It examines in detail the range of substantive and procedural policy instruments that together comprise the toolbox from which governments choose tools to resolve policy problems and the principles and practices that lead to their use Guiding readers through the study of the many different kinds of instruments used by governments in carrying out their tasks adapting to and altering their environments this book Considers the principles and practices behind the selection and use of specific types of Instruments in contemporary government and arrangements of policy tools esp procedural tools and policy portfolios Evaluates in detail the merits demerits and rationales for the use of specific organization regulatory financial and information based tools and the trends visible in their use Examines key issues such as policy success and failure and the role of design in it policy volatility and risk management through policy design how behavioural research can contribute to better policy designs and the micro calibrations of policies and their importance in designs and outcomes Addresses the issues not only surrounding individual tools but also concerning the evolution and development of instrument mixes their relationship to policy styles and the challenges involved in their re design as well as the distinction between design and non design Providing a comprehensive overview of this essential component of modern governance and featuring helpful definitions of key concepts and further reading this book is essential reading for all students of public policy administration and management American Book Publishing Record, 1991 *Subject Guide to Children's Books in Print* 1997 Bowker Editorial Staff, R R Bowker Publishing, 1996-09 *Bibliographie Internationale de Science Politique*, 1993 Natural Resources and Conflict Dynamics in Federal Countries Eyene Okpanachi, 2025-07-02 This book examines the dynamics of oil and gas conflicts within the context of federalism in Canada an older federation with broadly a decentralized institutional design governing oil and gas and Nigeria a newer federation with a largely centralized design It traces resource ownership control or regulation and revenue sharing conflict processes over time and provides a focused comparison of conflict over the role of oil in intergovernmental fiscal transfers in both countries In so doing the book provides a much needed corrective to conventional static notions of oil conflict as either violent or nonviolent outcomes by

carefully analyzing the evolution and ebbs and flows of conflicts hidden within conflict patterns that appear to be self reinforcing and entrenched The book demonstrates that de centralization dynamics especially the continuities and shifts in federal institutional structural and ideational rules about oil itself are central to the concept of conflict dynamics It highlights the endogenous processes of federal institutional development and lends credence to the historical institutionalists emphasis on the entanglement of institutions in their own transformation Yet the book also reveals that conflict dynamics did not emerge solely from the initial compromise between federal and provincial state actors regarding the allocation of competence over oil The renegotiation and reinterpretation of these rules over time which entails a redistribution of power resources in response to historical temporalities and shocks political agency and changing socioeconomic realities also generated unique patterns of conflict and conflict resolution within the federal institutional arenas **Journal of Health Politics, Policy and Law** ,1993 *Books in Print* ,1991 *Regional Economic Development in the European Union and North America* Morris L. Sweet,1999-06-30 Mainstream economists have given insufficient attention to regional and urban economics and economic geography Comparing nations in the European Union and North America this book examines government activities aimed specifically at regional economic development It provides a wide ranging consideration of numerous facets of regional economic development encompassing both national and subnational levels Proposing that a period of economic prosperity is the best time to invest in regional development the author indicates the need for a direct role by the federal government The study is based on a review of the U S Canada and Mexico the European Union and supranational organizations such as NAFTA and the WTO and their internal impact on regions The comparison shows that the U S lags dramatically behind the European Union The EU particularly the Western European countries has long been in the forefront of regional policy and is actively formulating policy whereas the U S has no semblance of a federal regional policy **Subject Guide to Books in Print** ,1997 **America, History and Life** ,1996 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide **International Computer Law** Ernst J. Louwers,Corien Prins,2004 **Restructuring and Resistance** Mike Burke,Colin Peter Mooers,John Shields,2000 This collection surveys major areas of neoliberal policy restructuring by various levels of Canadian government Unlike other academic studies it also considers theoretical and practical issues connected with movements of resistance against the neo liberal agenda Part one situates these developments theoretically in the context of globalizing capitalism and the changing role of the state the labour market policy formation and federalism Section two examines six major areas of policy restructuring ranging from health care and education to human rights and communication policy The final section considers the strengths and weaknesses of current political strategies of resistance and the new challenges imposed by global capitalist restructuring This volume provides both a vital assessment of the social consequences of neoliberal restructuring and a provocative contribution to the debate over the renewal of the left in Canada
