Von Origenes und Hieronymus zu Augustinus Alfons Fürst, 2011 Omslag Der Band bietet Streifzüge durch das Wirken von drei führenden antiken Theologen abseits der blauen Pfade der christlichen Dogmengeschichte Origenes begründet mit seiner Freiheitsanthropologie die wissenschaftliche Exegese und Theologie auf dem Niveau der Zeit und legt die Grundlagen für eine christliche Kultur Hieronymus der größte Philologe der Alten Kirche vermittelt in seinen Übersetzungen und Kommentaren griechisches und dank seiner Hebräischkenntnisse auch jüdisches Bibelwissen an den lateinischen Westen Augustinus ist von beiden beeinflusst entwickelt aber in kritischer Auseinandersetzung mit ihnen eine eigenständige und folgenreiche lateinische Theologie

Political Theory Evangelia Sembou, 2013-08-19 Political theory draws on a number of different disciplines such as political science philosophy history and law It is a broad subfield its practitioners depending on their background bring different perspectives and approaches to the study of political thought which range from historical to normative Moreover political theory often draws on the insights of as well as engages in a dialogue with social theory ethics and the philosophy of law In addition nowadays political theory has expanded to include the study of the international international political theory For all these reasons political theory is a core subject taught in a variety of academic departments Yet paradoxically there has been an increasing tendency in the past few years for political theory to be marginalized in the academy This is because so much academic policy concentrates on the main branches of the disciplines within which political theory falls Even worse for political theory social theory and the philosophy of law or legal philosophy with which it enters into fruitful dialogue are themselves weak areas within sociology and law respectively The aim of this volume is to address this situation What are the problems and challenges that political theory faces today What is

its importance as a distinctive branch of enquiry What are its main concerns The fact that political thought operates across disciplinary boundaries and often challenges the boundaries of the aforesaid disciplines is one of its greatest strengths

Humanity, Freedom and Feminism Jill Marshall, 2017-05-15 While some feminists seek to use ideas of the universal human subject to include women others argue that such ideas are intrinsically masculine and exclude the feminine This book analyzes and critiques second wave feminists who discuss how philosophers such as Plato and Aristotle Descartes Hobbes and Kant regard human beings and their capacities The author suggests adopting an inclusive universal concept of the human being drawn from ideas of positive liberty from the liberal tradition Hegelian ideas of the formation of the free human being in society and care ethics The book links this theoretical perspective to international human rights and humanitarian law drawing together areas of theory usually presented separately These include the liberal theory of the individual particularly individual freedom feminist critiques and theories of subjectivity globalization and global identity issues and the theory of human rights law with the focus resting on human subjectivity and ethics While the focus is on Anglo American jurisprudence this is combined with continental philosophy international human rights issues and a Yugoslav war crimes case study

A History of Political Thought Bruce Haddock, 2008-09-22 This book is a comprehensive introduction to the history of political thought tracing the development of arguments and controversies from ancient Greece through different forms of community state and empire to today s global concerns Bruce Haddock highlights the bewildering variety of contexts that have framed political thinking yet also displays structural features that have proved to be remarkably stable over time An important theme in the book is the need to see political philosophy even in its most abstract formulations as a response to historically contingent circumstances without limiting its relevance to those circumstances The emphasis throughout is on political thinking as a response to hard choices Major thinkers covered include Plato Aristotle Augustine Aquinas Machiavelli Grotius Locke Spinoza Montesquieu Hume Kant Rousseau Burke Hegel Marx Mill Lenin Schmitt Nietzsche Foucault Oakeshott and Rawls The book treats political philosophy and theory as a tentative engagement with a fractured and controversial past Yet political thinking remains the exercise of a burden of a responsibility that is inescapable for us Haddock introduces a history that continues to shape our understanding of ourselves as political
