The Political History of China, 1840-1928 Chien-nung Li, Li Chien-Nung, 1956-06 *The Political History of China 1840-1928* Li Chien-Nung, 2011-10-01 The Political History of China, 1840-1928 Jiannong Li, 1964 **The Political History of China 1840-1928** Li Chieng-nung, 1967 *Political History of China 1840-1928* C-N. Li, 1956 **Political History of China 1840-1928**, 1956 **The Cambridge History of China** John King Fairbank, Denis Crispin Twitchett, 1983 International scholars and sinologists discuss culture economic growth social change political processes and foreign influences in China since the earliest pre dynastic period The Political History of China, 1840-1928, by Li Chien-Nung. Translated... by Ssu-yu Teng,... and Jeremy Ingalls,... Li Chien-Nung, 1956 **Historical Dictionary of the Chinese Civil War** Christopher R. Lew, Edwin Pak-wah Leung, 2013-07-29 The Chinese Civil War which lasted several years or several decades depending on how you define it was one of the most momentous wars of the 20th century for it determined the fate of the world's most populous country and was bitterly fought with millions of combatants involved and hundreds of millions of civilians affected More to the point it was won by the Chinese Communist Party under Mao Zedong who imposed Communist rule while the Nationalists retreated to Taiwan It also heated up the Cold War for quite some time as the Communists were supported by the Soviet Union and the Nationalists by the United States This second edition of the Historical Dictionary of the Chinese Civil War studies the longer broader war and its chronology carefully tracks the major events The introduction then provides a broad overview describing the contending forces and showing how the Communists come out on top The details and these are crucial are laid out in over 200 cross referenced dictionary entries dealing with the opposing forces and parties the major campaigns and battles the Long March and of course the leadership on both sides This book one of few such in English provides a very solid basis for study but that can be accomplished more effectively by consulting the titles listed in an extensive bibliography **The Political Institutions of Modern China** W.L. Tung, 2012-12-06 This book is prepared primarily for students who are interested in studying the constitutional development and government structure of twentieth century China Since the emergence of the Chinese constitutional movement at the end of the nineteenth century political institutions in China have undergone constant changes The first four chapters treat of constitutional development and government systems from the latter part of the Ch'ing dynasty to the reunification of China by the Nationalist Party in 1928 The other eight chapters deal with the policies programs and institutions of the Nationalist and Communist governments up to 1962 While treatises on various subjects have been consulted the sources of this book are chiefly based on the official documents from the collections as indicated in the bibliography Materials in the first few chapters are partly drawn from my previous works on government and politics in China Because of the immense scope of the subject and the intricacy of the problems involved this work is not intended to be exhaustive but is rather a brief description and discussion of each topic under consideration As there are many valuable works on China in general as well as on her

history and international relations I have tried not to cover what has already been dealt with by others. In my presentation of facts and views I have endeavored to be as objective as possible, notwithstanding personal political convictions.
