Political Intellectuals And Public Identities In Britain Since 185:

Political Intellectuals and Public Identities in Britain Since 1850 Julia Stapleton, 2001 When Britain left the European Union in January 2021 it set out on a new journey Shorn of empire and now the EU too Britain s economy is as national as it has ever been A decade or so since globalisation seemed inevitable this is a remarkable reversal How did this happen Britain alone argues that this nationalisation aligning the boundaries of the state with its national peoples emerged from the 2008 global financial crisis The book analyses how austerity and scarcity intensified and created new conflicts over who gets what This extends to struggle over what the British nation is for who it represents and who it values Drawing on a range of cultural economic and political themes immigration and the hostile environment nostalgia and Second World War mythology race and the left behind the clap for carers and furloughing as well as Superscrimpers and stand up comedy the book traces the complex nationalist path Britain took after the crash demonstrating how we cannot explain nationalism without reference to the economy and vice versa In analysing the thread that ties the fallout of the crash and austerity through Brexit and to the shape of lockdown politics Britain alone provides an incisive and original history of the last decade of Britain and its relationship to the global economy *Multiculturalism in the British Commonwealth* Richard T. Ashcroft, Mark Bevir, 2019-07-12 At publication date a free ebook version of this title will be available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more Multiculturalism as a distinct form of liberal democratic governance gained widespread acceptance after World War II but in recent years this consensus has been fractured *Multiculturalism in the British Commonwealth* examines cultural diversity across the postwar Commonwealth situating modern multiculturalism in its national international and historical contexts Bringing together practitioners from across the humanities and social sciences to explore the legal political and philosophical issues involved these essays address common questions What is postwar multiculturalism Why did it come about How have social actors responded to it In addition to chapters on Australia Britain Canada and New Zealand this volume also covers India Malaysia Nigeria Singapore and Trinidad tracing the historical roots of contemporary dilemmas back to the intertwined legacies of imperialism and liberalism In so doing it demonstrates that multiculturalism has implications that stretch far beyond its current formulations in public and academic discourse *Enoch Powell* Paul Corthorn, 2022 Best known for his notorious Rivers of Blood speech in 1968 and his outspoken opposition to immigration Enoch Powell was one of the most controversial figures in British political life in the second half of the twentieth century and a formative influence on what came to be known as Thatcherism Telling the story of Powell s political life from the 1950s onwards Paul Corthorn s intellectual biography goes beyond a fixation on the Rivers of Blood speech to bring us a man who thought deeply about and often took highly unusual and sometimes apparently contradictory positions on the central political debates of the post 1945 era denying the existence of the Cold War at one stage going so far as to advocate the idea of an alliance with the Soviet Union advocating free market

economics long before it was fashionable while remaining a staunch defender of the idea of a National Health Service vehemently opposing British membership of the European Economic Community arguing for the closer integration of Northern Ireland with the rest of the UK and in the 1980s supporting the campaign for unilateral nuclear disarmament In the process Powell emerges as more than just a deeply divisive figure but as a seminal political intellectual of his time Paying particular attention to the revealing inconsistencies in Powell's thought and the significant ways in which his thinking changed over time Corthorn argues that Powell's diverse campaigns can nonetheless still be understood as a coherent whole if viewed as part of a long running and wide ranging debate set against the backdrop of the long term decline in Britain's international military and economic position in the decades after 1945 [Religiöser Pluralismus](#) Martin Baumann, Samuel M.
