Politics of Class Prof Klaus Eder, 1993-06-10 Are contemporary societies organized by class In recent years the apparent fragmentation of established class structures and the emergence of new social movements in particular the women's movement and environmentalism have altered the traditional expressions of class in society At the same time these changes have posed fundamental questions for the concept of class in sociology and political science In this major reassessment Klaus Eder offers a new perspective on the status of class in modernity Drawing on a critique of Bourdieu Touraine and Habermas he outlines a cultural conception of class as the basis for understanding contemporary societies His model reevaluates the role of the middle classes traditionally the crux of class analysis and links class to social theories of power and cultural capital The result is a cultural theory of class which incorporates the changing forms of collective action and the new social movements of contemporary societies Political Modernity and Social Theory Jose Mauricio Domingues, 2024-05-28

Modern liberal democracy and authoritarian collectivism have known diverse political regimes autocratic oligarchic or democratic they each consist of a mixed partly oligarchic regime in which plebeian politics are subordinated With authoritarian collectivism's defeat a return to modernity has produced one more hybrid configuration An in depth investigation of political modernity and how it is differentiated from other forms of society this book researches its origins and trajectory as a specific dimension of modern civilisation articulating a renewed critical theory through an analysis of rights and law politics state and autonomy social reproduction crisis and political change Examining these diverse aspects Political Modernity and Social Theory proposes an encompassing and far reaching approach spanning past and present stressing radical plebeian democracy and maintaining a strong opening to the future and to possible alternatives to modernity The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution CC BY 4.0 license Class and Space (RLE Social Theory) Nigel Thrift, Peter

Williams,2014-09-04 This book is about the place of space in the study of class formation. It consists of a set of papers that focus on different aspects of the human geography of class formation at different points in the history of Britain and the United States over the course of the last 200 years. The book shows that the geography of class formation is a valuable and cross-disciplinary tool in the study of modern societies, integrating the work of human geographers with that of social historians, sociologists, social anthropologists and other social scientists in an enterprise which emphasises the essential unity of social science.

Interessenvermittlung zwischen Konkurrenz und Konkordanz Heidrun Abromeit,2013-03-09 Die bürgerliche Gesellschaft gilt allgemein als individualistische. Im Mittelpunkt steht der Mensch wie Werbeslogans uns gemacht werden und zwar als Einzel Konsument wie als Einzel Wähler. Basis dieser Gesellschaftsformation ist indessen nicht das Individuum allein sondern sein Interesse. Wie gleich zu sehen sein wird ist sein Interesse nicht identisch mit seinen Bedürfnissen, Wünschen, Strebungen. Es ist nicht einmal identisch mit deren abstrahierendem Substrat sondern stets schon gesellschaftlich vermittelt. Das authentische Interesse des Individuums existiert nur in der Utopie in einer Welt ohne Gesellschaft. Insofern ließe sich sagen daß Vermittlungsprozesse die Gesellschaft konstituieren. Die bürgerliche Gesellschaft wiederum konstituiert sich zumindest insoweit sie sich als demokratische versteht durch Prozesse der Interessenvermittlung. Damit ist von vornherein nicht nur beträchtliche Komplexität sondern vor allem auch die Quele vielf

Die Willkür des Staates Stephan Hensell,2009-03-03 Dieses Buch ist aus einem Projekt am Institut für Friedensforschung und Sicherheitspolitik an der Universität Hamburg IFSH hervorgegangen das von 2003 bis 2006 von der Deutschen Forschungsgemeinschaft DFG sowie der Wissenschaftsförderung der Universität Hamburg finanziell unterstützt wurde. Es ist gleich eine bearbeitete Fassung meiner Dissertation die ich im Januar 2008 an der Humboldt Universität zu Berlin eingereicht habe. Der DFG der Universität Hamburg und meinen Kolleginnen und Kollegen vom IFSH gilt mein Dank für die wohlwollende Förderung des Projektes. Danken möchte ich auch meinen Freunden, Mitarbeitern und Gesprächspartnern in Albanien und Georgien die mich bei nicht leichten Feldforschungen vor Ort unterstützt haben. Mein Dank gilt ferner dem längst nicht mehr auf Hamburg beschränkten Mitgliederkreis der Arbeitsgemeinschaft Kriagsursachenforschung AKUF an der Universität Hamburg für die ebenso produktive wie freundschaftliche Zusammenarbeit der letzten Jahre. Nicht zuletzt danke ich aufrichtig meiner Familie vor allem meiner desperate workingwife für die Unterstützung und große Geduld während der Arbeit an diesem Buch.

Understanding Politics and Society Fabio de Nardis,2020-03-26 This textbook presents political sociology as a connective social science that studies political phenomena by creating fruitful connections with other perspectives. The relationship between politics and society is more complex than ever due to the emergence of new power structures, forms of conflict, organization and management and social practices of political participation. Several scholars describe this historical phase as the depoliticization of representative politics. The book addresses classical themes of and approaches to political sociology but also dedicates several chapters to contemporary developments within political sociology including for instance

the role of the internet and bottom up political communication in social movements In addition the volume acts as a professional tool for those scholars and researchers that are beginning to study political processes from a sociological perspective

Class Struggle and the New Deal Rhonda F. Levine,1988 In this reassessment of New Deal policymaking Rhonda Levine argues that the major constraints upon and catalysts for FDR's policies were rooted in class conflict Countering neo Marxist and state centred theories which focus on administrative and bureaucratic structures she contends that too little attention has been paid to the effect of class struggle

Science and the Sociology of Knowledge (RLE Social Theory) Michael Mulkey,2014-08-07 How far is scientific knowledge a product of social life In addressing this question the major contributors to the sociology of knowledge have agreed that the conclusions of science are dependent on social action only in a very special and limited sense In *Science and the Sociology of Knowledge* Michael Mulkey's first aim is to identify the philosophical assumptions which have led to this view of science as special and to present a systematic critique of the standard philosophical account of science showing that there are no valid epistemological grounds for excluding scientific knowledge from the scope of sociological analysis The rest of the book is devoted to developing a preliminary interpretation of the social creation of scientific knowledge The processes of knowledge creation are delineated through a close examination of recent case studies of scientific developments Dr Mulkey argues that knowledge is produced by means of negotiation the outcome of which depends on the participants use of social as well as technical resources The analysis also shows how cultural resources are taken over from the broader social milieu and incorporated into the body of certified knowledge and how in the political context of society at large scientists technical as well as social claims are conditioned and affected by their social position
