 Flinders,Aziz Z. Huq,2024-02-06 This volume considers the use of impeachment within a global context The book brings
 together leading scholars and experts to give an insight into significant periods in the development of impeachment and its
 modern comparative use Divided into five parts the opening chapter introduces the topic and underlines its significance in
 terms of understanding the relationship and inter dependence among politics governance and the law It also offers a novel
 conceptual framework that facilitates the global mapping of impeachment processes Part I presents a thematic approach that
 explores the topic of impeachment through the lenses of democracy human rights and the rule of law With these themes in
 mind Part II focuses on those parts of the world where impeachment is generally recognised as a core constitutional process
 including the United States South Korea Brazil and other countries in South America Part III continues with the process of
 constitutional mapping by moving to a focus on those countries where impeachment is arguably an important but largely
 secondary or peripheral process This includes chapters on Denmark Iceland Sri Lanka and the Philippines and flows through
 into Part IV s focus on areas of the world where impeachment matters and may even be increasing in terms of visibility but
 for a number of reasons arguably exists within a satellite status in terms of constitutional processes and safeguards The fifth
 and final section steps back in an attempt to assess impeachment processes from a broad comparative perspective The
 collection presents the definitive text on impeachment for students and scholars with an interest in comparative public law
