## **Political Ambition Who Decides To Run For Congress:**

**Political Ambition** Linda L. Fowler, Robert D. McClure, 1989-01-01 How do politicians decide whether or not to run for Congress What is involved in the winnowing process that dictates months before the election the choices available to voters on the ballot Using extensive interviews and analyses of district data and opinion polls Linda Fowler and Robert McClure argue that House elections are intelligible only if we look beyond that declared candidates to those who could have run but chose not to Their book set in New York's 11th Congressional District during the elections of 1984 and 1986 assesses the personal and contextual factors that motivate some individuals to enter a House race and induce others to remain on the sidelines By uncovering the hidden obstacles that line the road to Washington Fowler and McClure reveal why only the most ambitious men and women complete the journey Fowler and McClure contend that the cost and complexity of competitive House races now demand a level of commitment and advance planning that only those with a highly focused desire to serve in Congress can sustain Despite the increased presence of national parties and PACs in congressional races they say it is the local political context that dominates the decision to run Within this setting individual candidates not party organizations develop the strategies manage the resources and define the alternatives in most House races Fowler and McClure discuss how changes in American politics such as reapportionment the redistribution of power away from Washington and the transformation of parties and interest groups affect the nation's supply of competitive office seekers And they devote special attention to the recruitment of female legislators offering insight into the continued failure of women to make significant inroads into the House of Representatives

*Ambitious Politicians* Patrik Öhberg, 2017-05-12 Those people who must want to rule people are ipso facto those least suited to do it This is how writer Douglas Adams neatly expressed the common view of political ambition And yet it's hard to imagine any politician getting far without it *Ambitious Politicians* brings a welcome study and insight to this conundrum Focusing first on the party centered politics of European democracies where career ambitions are necessarily different than those in the United States Patrik Öhberg looks closely at what motivates those aiming at the highest level of the political hierarchy how these motivators differ between more and less equalitarian societies and how such ambitions play out His book which draws upon a uniquely extensive survey conducted by the Swedish National Election Study Program is the first thorough study of elite politicians who aspire to the top echelons of the parliamentary system Politicians with career ambitions have a distinct idea of representation Öhberg finds they display a higher degree of political self regard and are more responsive to the wishes of the party elite in developing strategies These findings vary among European democracies and they differ from the traits and trajectories of political ambition in the United States By identifying the subtleties and charting the differences Öhberg offers a valuable lesson on whether and how representative democracies are served by politicians driven by personal ambition or by those subverting such ambitions to the needs of party or state Ambition this timely book reminds us has been crucial for political thinkers from Aristotle through the

Founding Fathers to the latest candidate for higher office Informed by history and social science theory and grounded in a wealth of data **Ambitious Politicians** expands our understanding of the important and changing role of such ambition in collective decision making in our day **Out of the Running** Shauna Shames,2018-07-03 An inside look into why Millennials are rejecting careers in politics and what this means for the future of America s political system Millennials are often publically criticized for being apathetic about the American political process and their lack of interest in political careers But what do millennials themselves have to say about the prospect of holding political office Are they as uninterested in political issues and the future of the American political system as the media suggests Out of the Running goes directly to the source and draws from extensive research including over 50 interviews with graduate students in elite institutions that have historically been a direct link for their graduates into state or federal elected office Harvard Law Harvard s Kennedy School of Government and Boston s Suffolk University Law School Shauna Shames herself a young graduate of Harvard University suggests that millennials are not uninterested rather they don t believe that a career in politics is the best way to create change Millennials view the system as corrupt or inefficient and are particularly skeptical about the fundraising frenzied media attention and loss of privacy that have become staples of the American electoral process They are clear about their desire to make a difference in the world but feel that the broken political system is not the best way to do so a belief held particularly by millennial women and women of color The implications of Shames argument are crucial for the future of the American political system how can a system adapt and grow if qualified intelligent leaders are not involved An engaging and accessible resource for anyone who follows American politics Out of the Running highlights the urgent need to fix the American political system as an absence of diverse millennial candidates leaves its future in a truly precarious position
