McGilvray, 1973      **A Manifesto on the Constitution, Social Contract, and Certain Inalienable Rights** Iras DuBard, MSW, 2011-02-01 Our founding fathers rebelled against England because the American Colonies were not being represented While at the same time they enslaved a whole race of people Our Constitution guarantees us the right to pursue our happiness but it does not guarantee us the right to obtain our happiness All of the social ills and terrorism that have taken place in America can be traced back to parenting or the lack thereof      Social and Political Philosophy Andrea Veltman, 2008 Social and Political Philosophy Classic and Contemporary Readings is a comprehensive reader that offers a carefully balanced perspective of modern day social and political philosophy and the ways in which classic thought has shaped it Editor Andrea Veltman seamlessly integrates the work of contemporary philosophers Canadian scholarship and feminist perspectives with some of the most valued readings in political thought Suited to both one and two semester courses Social and Political Philosophy is a uniquely Canadian text that brings fresh insight into many of the issues facing today's society Pedagogical features including biographical sketches recommended readings and end of chapter review questions engage readers and helps students foster important connections between the past and present      *Consuming Schools* Trevor Norris, 2011-01-01 The increasing prevalence of consumerism in contemporary society often equates happiness with the acquisition of material objects Consuming Schools describes the impact of consumerism on politics and education and charts the increasing presence of commercialism in the educational sphere through an examination of issues such as school business partnerships advertising in schools and corporate sponsored curriculum First linking the origins of consumerism to important political and philosophical thinkers Trevor Norris goes on to closely examine the distinction between the public and the private sphere through the lens of twentieth century intellectuals Hannah Arendt and Jean Baudrillard Through Arendt's account of the human activities of labour work and action and the ensuing eclipse of the public realm and Baudrillard's consideration of the visual character of consumerism Norris examines how school commercialism has been critically engaged by in class activities such as media literacy programs and educational policies regulating school business partnerships      Philosophy East & West, 1973      Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1975      **Analysis and recommendations** Uganda Constitutional Commission, 1993      *The Review of Metaphysics*, 1973      *The Just War Tradition: Applying Old Ethics to New Problems* Davis Brown, 2017-07-05 This collection examines the role of the just war tradition and its criteria in solving pressing present day challenges In particular it deals with three types of challenges to world public order One is anticipatory self defense in which one state attacks another to pre-empt or prevent an attack on itself as the United States claimed in relation to Iraq in 2003 The second challenge is humanitarian intervention in which one state attacks another to stop gross large scale violations of human rights as NATO claimed to be doing on behalf

of Kosovo in 1999 Both practices may erode world public order given the normative strength of Article 2 4 of the UN Charter prohibiting the threat or use of force against other states However both practices pose dilemmas in that they also preserve world public order by not allowing impunity for human rights abusers or the misuse of international law to the advantage of genuine aggressors The third challenge is the execution of warfare in a new geopolitical environment characterized by new technologies and asymmetry of belligerents The chapters in this book written from a variety of disciplinary perspectives turn to the just war tradition to attempt to resolve these tensions This book was based on a special issue of the Journal of Military Ethics

that if we wish to have a coherent and accurate understanding of the meaning of the political philosophy of Thomas Hobbes we must reject the truth of the conventional scholarly assertion that Hobbes did not write about the English Civil War Professor Steinberg argues that Hobbes writes as a traditional political philosopher engaged in developing a polemical attack intended to ridicule and condemn the ideological doctrines of the men who caused the English Civil War The author explains how the meaning of Hobbes s political writings emerges in connection with the manner in which Hobbes writes about the major issues associated directly with the English Civil War
