*Political Consultants in U.S. Congressional Elections* Stephen K. Medvic, 2001 Campaign consultants are arguably now as famous in the United States as the politicians themselves During the past decade those who know the names Bill Clinton George Bush Newt Gingrich and Christine Todd Whitman also recognize the names James Carville Mary Matalin Frank Luntz and Ed Rollins Professional consultants once part of the privileged inner circle of presidential and gubernatorial candidates are increasingly found at all levels of politics Indeed more than half of congressional candidates hire campaign consultants These professional have become as important to a candidate s success as money In this innovative study Stephen K Medvic explores all aspects of political consultancy and develops an empirically based theory that ensures the impact consultants have on elections *Political Consultants in U S Congressional Elections* answers two simple questions What do professional political consultants do and How successful are they Medvic analyzes the way consultants shape political dialogue and uses empirical data to show the benefits and limits of a consultant s involvement in a campaign He focuses on issues as diverse as vote shares outcomes and fundraising Finally the author demonstrates how the adversarial nature of campaigns fosters the kind of electioneering advocated by most political consultants and argues that this process may not be as harmful for the country as is often suggested

**Responsible Partisanship?** John Clifford Green, Paul S. Herrnson, 2002 More than fifty years have passed since the American Political Science Association published *Toward a More Responsible Two Party System* a controversial report that addressed the lack of national cohesion within the major parties Although parties have changed a great deal since then they remain a critical component of American democracy While the possibilities and limits of responsible party government have been central topics in the literature since

1950 this book is the first to reassess all aspects of the APSA report Here a distinguished group of scholars among them Charles O Jones Barbara Sinclair Frank J Sorauf John Bibby and Gerald Pomper examine the effectiveness accountability and relevance of parties to the democratic process These articles cover all major relevant topics focusing on recent changes in laws that govern parties innovations in party organization party finance and the relationships among political consultants and parties They examine the place of the party in government including chapters on the changing role of parties in Congress and in the presidency and also consider the roles of parties among the electorate examining trends in voting behavior party identification and ideology A capstone essay by Leon Epstein the dean of American party scholars reviews the ongoing quest for responsible partisanship over the past half century These contributors offer a mixed assessment of the two party system showing that parties are in many respects stronger at the national level than they were in 1950 but not necessarily more responsible The most comprehensive description and analysis of American parties now available Responsible Partisanship should become required reading for all students and citizens concerned with making parties more accountable instruments of government

Thurber, Candice J. Nelson, 2001-09-19 Campaign politics has become increasingly professionalized in recent years The growing prevalence and influence of paid consultants in the United States and other democracies is one of the most important factors changing the nature of electoral politics Campaign Warriors thoroughly examines this critical and controversial development and its impact on the political system in the U S and other countries The contributors approach the topic from several different perspectives including the increasing use of spin doctors and the resulting loss of influence of state and national political parties The book investigates the role of these paid advisers who they are what they do and why and how they feel about their work The contributors discuss the consultant s relationship with candidates and parties and analyze the effect of their efforts on election outcome *The Strategic Role of Political Consultants in U.S. House Elections* Sean Andrew Cain, 2006 Party Politics in America Marjorie Randon Hershey, 2007 Part of the Longman Classics in Political Science series this gold standard of parties texts has been updated to include an examination of the 2004 election party plans for the 2006 midterms as well as new data and examples on public opinion and congressional voting Party Politics in America analyzes three primary components of parties party organization party in the electorate party in government and the interaction of these components especially during election campaigns Originally written by Frank Sorauf and now authored by Majorie Hershey the book integrates academic research with contemporary and historical examples to bring to life the fascinating story of how parties have helped to shape our political system The Electoral Challenge Stephen C. Craig, David B. Hill, 2011 Stephen Craig has compiled an impressive collection of chapters in this fantastic book The chapters provide a broad yet thorough coverage of the literature ranging from campaign effects to money in politics A must have for
