*Bibliography of Imperial, Colonial, and Commonwealth History Since 1600* Andrew N. Porter, 2002 The twentieth century witnessed an unprecedented growth of research and publication on the history of Britain's empire the Commonwealth and British expansion overseas Historical work by area specialists has transformed the state of knowledge concerning colonial North America India the Caribbean sub Saharan Africa South and South East Asia the Pacific and Australasia Much has been written about Britain's interests and presence in areas and societies never formally subjected to British rule such as Latin America and the Middle and Far East Most recently a preoccupation with the reciprocal impact of overseas expansion and colonial possessions on Britain itself has produced a rapidly growing historiography Publication on this scale has made it virtually impossible for anyone either to keep track of the results or to follow up particular interests Britain's overseas history has never been well supplied with comprehensive bibliographical aids and despite extensive public interest in the subject the position has steadily worsened Following the recent Oxford History of the British Empire this volume is therefore designed to provide a general source of reference and bibliographical guidance at once wide ranging up to date and accessible      **Das System des bargeldlosen Zahlungsverkehrs europäischer Prägung vom Mittelalter bis 1914** Markus A. Denzel, 2008 Quellen und Literaturverz S 515 566      **Information Flows** Leos Müller, Jari Ojala, 2007 Business information is an important subject in contemporary social and economic historical studies One reason is the revolution in information technology of the recent decades Another reason is the impact of neo institutional economics which singled out information costs as an important factor in economic performance However this attention has primarily been paid to contemporary or recent use of business information The present book looks at the role of business information from a long time perspective 1350 2000 with the aim not least of pointing out the continuity and the evolutionary character of the changing use of information The chapters of this book however not only cover a long period and a varied subject matter They also represent new and fresh analytical perspectives on the issue of business information in addition to providing us with

original historical research This book will attract any scholar interested in information flows from the mid fourteenth century to the present day      **Bibliographie Internationale Des Recensions de la Litt Ératuure Savante** ,1983
