Poisons That Heal:

Healing with Poisons Yan Liu, 2021-06-27 Winner of the 2023 William H Welch Medal sponsored by the American Association for the History of Medicine A revealing study of risky cures in classical Chinese pharmacy At first glance medicine and poison might seem to be opposites But in China s formative era of pharmacy 200 800 CE poisons were strategically deployed as healing agents to cure everything from chills to pains to epidemics Healing with Poisons explores the ways physicians religious devotees court officials and laypeople used powerful substances to both treat intractable illnesses and enhance life It illustrates how the Chinese concept of *du* a word carrying a core meaning of potency led practitioners to devise a variety of techniques to transform dangerous poisons into efficacious medicines Recounting scandals and controversies involving poisons from the Era of Division to the early Tang period Yan Liu considers how the concept of *du* was central to the ways people of medieval China perceived both their bodies and the body politic Liu also examines a wide range of *du* possessing minerals plants and animal products in classical Chinese pharmacy including the highly poisonous herb aconite and the popular arsenic drug Five Stone Powder By recovering alternative modes of understanding wellness and the body s interaction with potent medicines this study cautions against arbitrary classifications and exemplifies the importance of paying attention to the technical political and cultural conditions in which substances become truly meaningful Healing with Poisons is freely available in an open access edition thanks to TOME Toward an Open Monograph Ecosystem and the generous support of the University at Buffalo Libraries DOI 10 6069 9780295749013

The Politics and Poetics of Contemporary English Tragedy Sean Carney, 2013-02-13 The Politics and Poetics of Contemporary English Tragedy is a detailed study of the idea of the tragic in the political plays of David Hare Howard Barker Edward Bond Caryl Churchill Mark Ravenhill Sarah Kane and Jez Butterworth Through an in depth analysis of over sixty of their works Sean Carney argues that their dramatic exploration of tragic experience is an integral part of their ongoing politics This approach allows for a comprehensive rather than selective study of both the politics and poetics of their work Carney s attention to the tragic enables him to find a common discourse among the canonical English playwrights of an older generation and representatives of the nineties generation challenging the idea that there is a sharp generational break between these groups Finally Carney demonstrates that tragic experience is often denied by the social discourse of Englishness and that these playwrights make a crucial critical intervention by dramatizing the tragic
